

BLACK IS...

Video Transcript

Black is such a poor definition of a dynamic race. Black is the beautiful struggle to be me. Black girl magic is a whole mood. Different experiences make different people. You were made for greater things.

Our heritage has kingdoms, kings and queens. They didn't name me to blend in. Am I truthfully, beautifully and wonderfully made? Queen energy, it's how we cultivate the best in ourselves.

Black is the thing to be desired even outside of hip hop videos. Black is excellence. Black is to overcome. Black is power. Peace.
