High performance. Delivered.

Accenture Global Convergence Forum
November 11-13, 2009
New Delhi, India

India has been a crossroads to some of the oldest cultures in the world.

Indian mathematicians calculated one of the most accurate estimates of pi (π) 3,000 years ago.

Today, more than 100 languages are spoken in India, including the language of communications and high tech.

And for that reason, India remains at the crossroads of change.

Harsh Manglik
Chairman-India
Geography & Country Managing Director
Accenture

Fully one half of India's people are below the age of 23.9 years of age. And this is affecting corporations, public life, personal life, the whole social landscape of India in a very, very profound and powerful way.

There are over 1,500 Indian software companies in Bangalore alone.

India is the world's fastest-growing cellular market, adding as many as 9 million new customers a month.

• Consulting • Technology • Outsourcing

With such a rich history as its backdrop—and a population poised to be at the forefront of innovation—Accenture will host the twenty-first Global Convergence Forum in New Delhi, India.

Like the Forums in Beijing and in Rome, the 2009 Accenture Global Convergence Forum promises to be an unmatched opportunity to hear from visionaries and industry leaders.

Past speakers include:

Sol Trujillo, Telstra Corporation
John Chambers, Cisco Systems
Ruigang Li, Shanghai Media Group
Anne Mulcahy, Xerox
Jack Welch, General Electric
Meg Whitman, eBay
The Right Honourable John Major
James L. Balsillie, Research in Motion
Shin Bae Kim, SK Telecom
Lawrence Babbio, Jr., Verizon Communications
Sumner Redstone, Viacom
Julio Linares López, Telefónica de España

And like all Accenture Forums, it is also an excellent opportunity for leading executives to network in breakout sessions and cultural events.

**Philip Jordan
CIO Vodafone UK**

GCF provides a fantastic opportunity to network. The agenda is usually packed with interesting, relevant topics. The people, either in keynotes or breakouts are usually very well informed and there's a huge opportunity to learn from them; but the real value is the opportunity to meet them outside of breakout and keynote.

The Accenture Global Convergence Forum is an invitation-only event. This year will include a truly one-of-a-kind experience: a private train will take attendees to Agra, home of India's Taj Mahal.

Executives who join us participate in an on-going conversation about the future of the communications, electronics, high tech, media and entertainment industries.

While at the Accenture Global Convergence Forum in New Delhi, attendees will have an opportunity to visit one of our Delivery Centers or our Innovation Center in Bangalore.

To schedule, contact your Accenture Representative.

Harsh Manglik

If you come to India, you will experience the energy that is unleashing one of the most profound changes and transformations on Earth.

**Bill Green
CEO, Accenture**

I think it creates a buzz in the country as a company like Accenture comes in and hosts its best clients in India, to be able to not only showcase what Accenture's about and not only share ideas around the industry from our other clients, but also give those clients a view for Indian and its potential and its role in the global stage in the future going forward.
