I use bitcoin as an investment for my future.

I use blockchain for storing my bitcoin because I feel it's more secure, and I'm using a Chrome based menu just for selling and trading my coins through that.

Technology has changed our life in many ways, how we communicate now and how we educate and learn in everyday life of everyone.

After all the struggles and challenges we've faced, even putting our lives at risk, in the end, we got the career we really wanted.
