SAP HCM Trends & Innovation Workshop

Leverage world-class tools and insights

Exciting new developments in the field of HR have the potential to drive growth by enhancing productivity across industries.

The HCM Suite developed by SAP and SuccessFactors helps HR drive business execution with solutions that are comprehensive, engaging and flexible enough to start anywhere and still go everywhere.

The SAP HCM Trends & Innovation Workshop will provide you an opportunity to share insights and ideas on trends and innovations in HR through presentations by Accenture leaders and other experts.

We look forward to your presence at the workshop. Please [register here](#) to attend.
