

A large, stylized purple graphic consisting of two overlapping chevron shapes pointing towards each other, forming a central diamond-like area. The top chevron is lighter purple, and the bottom one is a darker shade.

WHAT IS ACCENTURE? VIDEO TRANSCRIPT

Accenture knows how market disruption works. Many people say Accenture does “future work’. Yes, we’ve been helping our clients get ready for the future. For example, we co-imagine customer experience and co-ideate solutions with our clients in our innovation hubs in Shanghai, Shenzhen, Hong Kong.

We’ve been strong in financial results since we went public in 2001. Even the market isn’t that optimistic right now, we are still doing great. We made US\$41 billion last year and our share price is still going up and above the market.

We are famous for digital and providing integrated services across Strategy, Consulting, Digital, Technology and Operations. This is unique among traditional consulting firms and software companies.

We are Accenture. I am Zhu Wei. Let’s talk.
