

High performance. Delivered.

**Accenture
Consulting Careers
in Resources**

Grow your career transforming Resources clients.

Ellie Azolaty

Hi, my name is Ellie and working with a dynamic team inspires me.

One of the many benefits of working at a global company is getting to work with people from across the world.

Obi Osuorji

Hi, my name is Obi and innovative technologies inspire me.

Our past successes in technology have really led us to the forefront of Resources.

Carly Hilley

My name is Carly. What inspires me is seeing our clients being so excited about the work that we're doing, and us making such a positive impact on their business.

Ellie Azolaty

One of the reasons I think Accenture is so strong in the Resources industry is because we can offer solutions from the end-to-end project life cycle.

Obi Osuorji

That's what the secret sauce at Accenture is. Really delivering that value to our clients, understanding what their problems are and, and figuring out a way that we can pull our resources together to solve it.

Carly Hilley

Resources touches every person's life. You think about it when you heat your home, when you fill up your car.

We were able to consolidate 45 different systems that a company was using all the way in to one, which meant that somebody in Houston was able to work on the same system as their counterpart in Malaysia.

Ellie Azolaty

Transformational thinking meets transformational doing. To me it's a change of mindset. We have to think bigger and create a ripple effect throughout the organization.

Ellie Azolaty

Accenture is dynamic.

Carly Hilley

Accenture is exciting.

Obi Osuorji

Accenture is shaping the future.

I think Accenture attracts people that, you know, want to do the best that they can, creating as much value for the client as possible.

Ellie Azolaty

What I look for most in someone joining our team is for them to be adaptable, to be flexible, to always stay curious and seek out alternate perspectives.

Carly Hilley

When you get to Accenture, have confidence that you will find your niche and you will find work that you truly love to do.
