

High performance. Delivered.

ACCENTURE CLOUD PLATFORM SCRIPT

INTRO	<p>Unlocking the potential of the cloud is the key to driving high performance and growth in today's digital business.</p> <p>Scalable, pay-as-you-go consumption of IT infrastructure services...</p> <p>...gives businesses the agility, speed and control to deliver business growth.</p>
THE PROBLEM	<p>But, it's not always a smooth journey...</p> <p>Demands on IT resource are doubling while budgets remain flat...</p> <p>You need to:</p> <ul style="list-style-type: none">• manage multiple providers• source best-of-breed solutions• and manage your legacy enterprise systems along with private and public cloud. <p>All the while guiding your organizations away from buying technology to buying services...on demand.</p> <p>It's an ever-shifting landscape.</p>
THE SOLUTION	<p>The Accenture Cloud Platform puts control back in your hands...</p> <p>...by making the complex...simple.</p>
THE BENEFITS	<p>Now you can get your cloud, your way. With access to services through applications directly... through the native cloud provider's console... or through our centralized dashboard...</p> <p>...that brings multiple providers and services together into a single view that makes governance and budget control straightforward and makes adding new services on demand simple...</p> <p>We've even included additional analytics and blueprinting tools.</p> <p>All with the peace of mind of centralized monitoring, security and patching.</p>
RESULTS + REASONS TO BELIEVE	<p>The Accenture Cloud Platform is a scalable, pay-as-you-go, vendor-neutral, enterprise grade cloud managed service that...</p> <p>...accelerates service deployment...</p> <p>...increases security and governance...</p> <p>...and reduces total cost of ownership...</p> <p>...providing you with levels of cloud control and agility that you have not experienced before.</p> <p>... Allowing you to drive business transformation through Accenture's deep industry knowledge and technical expertise.</p>
FINISH	<p>Accenture Cloud Platform. It's time to take control.</p>
