

## Accenture Operations Video Transcript - Marius

*Narator* Use your digital skills to Be Greater Than. Be yourself, make a difference by joining us.

*Speaker* My name is Marius Grecu. I handle Cloud Migration Implementation and I've been working for Accenture for over a year. What I like most about my job is the fact that I have the opportunity to work with new and diverse technologies. You can never say you've learned everything about this job: new things always appear, and you can always learn something new. It never stops being interesting, which is incredible. At Accenture, I like very much that I can be myself. Being passionate about gaming and working in a young and dynamic environment, I also find most of my colleagues have these passions and hobbies as well.
