

BE YOURSELF, MAKE A DIFFERENCE.

VIDEO TRANSCRIPT

MEET JOE

I left Haiti when I was 18 for Tampa, Florida and ended up at university in South Florida for industrial engineering. I love soccer, I've been playing since I was six years old. I started playing with the guys at USF, that was it you know, coach told me play and then I was on the team.

Being a super involves constant communication with everyone on the team. It's very similar to what I do at Accenture. I'm in charge of SAP delivery projects handling a team of 40 to 50 resources.

We basically do SAP implementations, that can involve multiple SAP modules, different technologies, integration with different systems.

So if you think about each of these modules as different positions in the field it's about the same thing, it's about how we can work together to achieve a common goal.

My name is Joe Elibert, I'm a SAP advisory senior manager at Accenture.
