

# AFGHAN GIRLS ROBOTICS TEAM

## VIDEO TRANSCRIPT

When my sister and I started our first IT business in Afghanistan, we felt there are millions of other girls, out there, who are just like us.

They are passionate and curious.

But they have been given a very narrow view to explore the world. And that's why we started creating those IT centres for these girls

The great example is the Afghan girls robotics team. They recently won the entrepreneurship challenge programme in Estonia, at one of the biggest robotics competitions in Europe.
