

ACCENTURE | GROWTH

VIDEO TRANSCRIPT

The growth opportunities that are here are amazing.

I went from being an agent, to now, a team manager.

I was able to finish two degrees while working here full-time.

There's endless opportunities to grow within this company. You can go into training. You can become part of management. You can go into recruitment.

You meet people from different backgrounds. Everyone is different. Everyone has different personalities, but the personalities come together and they mesh.

Accenture's definitely collaborative, everything from peer support to support from upper management.

I have been fortunate enough to be aligned with an amazing mentor. So if there's any opportunities that come up, they make sure, is this something you're interested in? What do you need help to get to where you need to get to?

Everybody can strive to achieve here. If you're willing to put in the time, and you're willing to put in the effort, the opportunities are always there for you.
