

JOSEFINE OLSSON DAY IN THE LIFE

VIDEO TRANSCRIPT

Hi everyone, my name is Josefine Olsson and I work as a Technology Strategy Consultant at Accenture's office in Stockholm.

As a part of my role at Accenture I've been travelling all over the world. For example, visiting New York, Shanghai, London and Milan.

One of my passion projects is the Global Change Award where I get to collaborate with interesting partners to truly drive change in the fashion industry. It's important to always stay on top of the latest trends. I also get the opportunity to do a lot of public speaking on some of the topics that I'm truly passionate about, for example innovation, new technology and circular economy.

Now I'm on my way to the Accenture office. Here in Stockholm we are located at Kungsholmen close to this beautiful view.

One of the best parts of Accenture is the people and the great community that we have together. Today is our Friday breakfast.

Currently I work a lot with sustainable fashion, and now I have a meeting with my colleague Hannah to discuss a trend report we will develop during next year.

Now it's time for my favorite part of the day: lunchtime. Eating lunch in the sun with my great colleagues.

At the Stockholm office we have a Liquid Studio and there you can play around with lots of technologies like VR and AI.

Here I am with our strategy robot Glenn.

I get to work with topics that I am truly passionate about and work with very inspiring colleagues in a very cool and global environment.

If you're interested in joining our winning team, don't hesitate to apply to Accenture today.
