High performance. Delivered.

YOUR CAREER. YOUR ADVENTURE.

Strategy | Consulting | Digital | Technology | Operations

Start your adventure here.

Embark on more than a career. When you work or engage with Accenture's pre-employment programs, you can improve the way the world works and change lives—and drive the innovations that make a real difference.

Accenture is a global professional services company that attracts the best and brightest. Join a team of more than 380,000 people globally, working across 40+ industries, serving clients in 120+ countries. Here, you can be part of an innovative culture and work at the heart of business and technology.

Experience that counts

Whatever your existing course, degree, or year of study, there's an Accenture opportunity for you.

Accenture Graduate Roles

The best career move you'll ever make. Kick off your career with a graduate role in one of our five areas: Strategy, Consulting, Digital, Technology or Operations. As a valued member of our team, see your ideas become reality and gain hands-on experience across the full project lifecycle.

Accenture Adventure

This one-day event puts you on the fast track to securing your own graduate role. If you're a year away from graduating, apply and you could enter your final year confident in the knowledge you'll be joining Accenture when you complete your studies.

Accenture Technology Academy Bootcamp

Whether you want to improve your coding, learn about big data, or enhance your IT knowledge, apply for the four-day Bootcamp. Learn business analytics, reach new levels of app development and be trained in splunk (general-purpose search, analysis and reporting engine) in this hands-on experience run by Accenture Technology.

Future Technology Leaders Program

Are you ready for the future? Do you have a passion for innovation and technology? Expand your knowledge and network by joining our one-year program. Throughout the year you will have the opportunity to attend workshops and events where you will meet and network with Accenture experts.

Women in Technology

Boost your tech industry knowledge at these inspiring events and seminars with insights from Accenture leaders, networking opportunities and engaging campus workshops.

Internships

Each year, a range of internships is available subject to business demand. Be sure to check our careers website regularly.
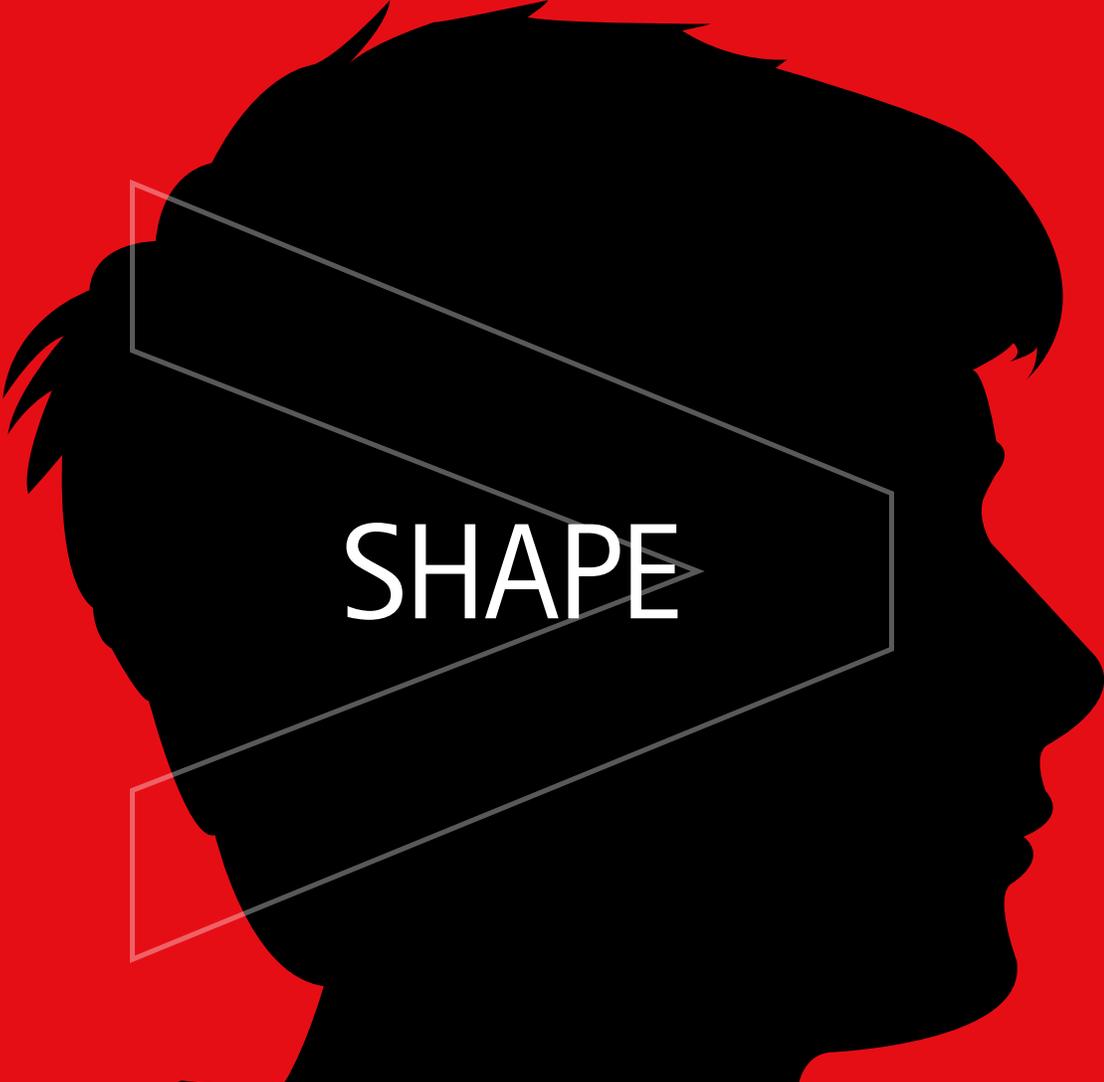

Apply Now

Accenture welcomes applications from Australian / NZ citizens and permanent residents. There may also be other requirements pending on the program / role that you apply for, so please go to our careers site for full details. Opening and closing dates can vary depending on the program.

SHAPE

At Accenture Strategy, your ability to use insightful and methodical thinking will guide others to shape their business. Here, you'll play an integral role assisting organisations to execute unique business transformations, take clients to the intersection of business and technology, and answer the big questions.

We're a top 5 strategy consulting firm globally, with more than 8,000 people. We act as a trusted advisor, actively shaping clients' futures in this age of digital disruption. Through a mix of insights, understanding and awareness of technological impact, we help all kinds of organisations to stay ahead of the curve.

What does that mean in real terms? Well, things like enabling H&M to enter digital retailing. Saving a global brewer $1 billion over five years. Helping 140,000 farm businesses to leverage digital strategies and online platforms for a cohesive voice. It's all about critical thinking, problem solving and decision making.

Your future

Opportunities at Accenture Strategy will test your ingenuity and intelligence—that's what makes them so rewarding. Your future path could involve advising leading businesses on vital change, developing business and operating models, or helping organisations to implement new technology. Our three practices provide opportunities in Business, Technology and Operation/Function Strategy.

Your background

To succeed, you'll be an ambitious achiever—thriving on challenges and working in a high-intensity environment. Ideally, you'll have strong strategic and analytical skills, and the ability to make rational judgements under pressure.

- Strategic and analytical skills
- Natural curiosity and creativity
- Problem-solving abilities

TRANSFORM

At Accenture Consulting, use your vision and foresight to transforms organisations. Embrace fresh, exciting challenges—every day. Work with leading global companies, sharing your insights and capabilities to help them achieve their goals.

Transforming companies and governments is exciting. At Accenture Consulting, our insights can spark change on all levels—from fine detail to large-scale improvements. And because our clients span many industries, every project is different.

Imagine being a part of driving 350% growth for Uniqlo, creating world-leading diagnostic processes for Roche, or providing cutting-edge content and fan engagement for Australian Rugby Union. No two days are the same!

Your future

Here, you have an unrivalled opportunity to build a specialised skillset and become a true expert in your field. Achieving successful change takes collaboration across our entire organisation; drawing on the expertise of professionals in Strategy, Digital, Technology and Operations as well as Consulting.

Your background

Ideally you will be an academic performer, with an agile, All degree types are considered for this program. You'll thrive if you're an academic performer with an agile, entrepreneurial and collaborative attitude—especially if you can demonstrate the below.

- Strong entrepreneurial instinct and willingness to take calculated risks
- Adaptability to change and ability to operate in undefined, unstructured situations
- Excellent communication skills with a high level of executive presence
- Ability to convey detailed and professional industry knowledge

DIGITISE

At Accenture Digital, use your technical capabilities to spark change in business and government. Drive delivery and take control—from back-end processes to front-end UX, helping companies via digital services and solutions that encompass cloud, mobile, analytics, interactive and social.

Our mission is to improve digital interactions, experiences and performance. On a daily basis, that means working to give clients the speed, scale, ideas and infrastructure they need to succeed.

It can be pretty exciting. We've done things like enable live streaming for Cricket Australia, help an international water company to monitor supplies, and support the Australian Youth Orchestra with digital connections for remote auditions.

Your future

With such a diverse range of projects and clients across all industries, the sky's the limit when it comes to opportunities. Our three core areas offer plenty of challenges:

Interactive – creating better digital experiences, taking in areas such as marketing, social media, ecommerce, customer experience, design and innovation, sales and customer service. This includes Fjord, our global design and innovation consultancy.
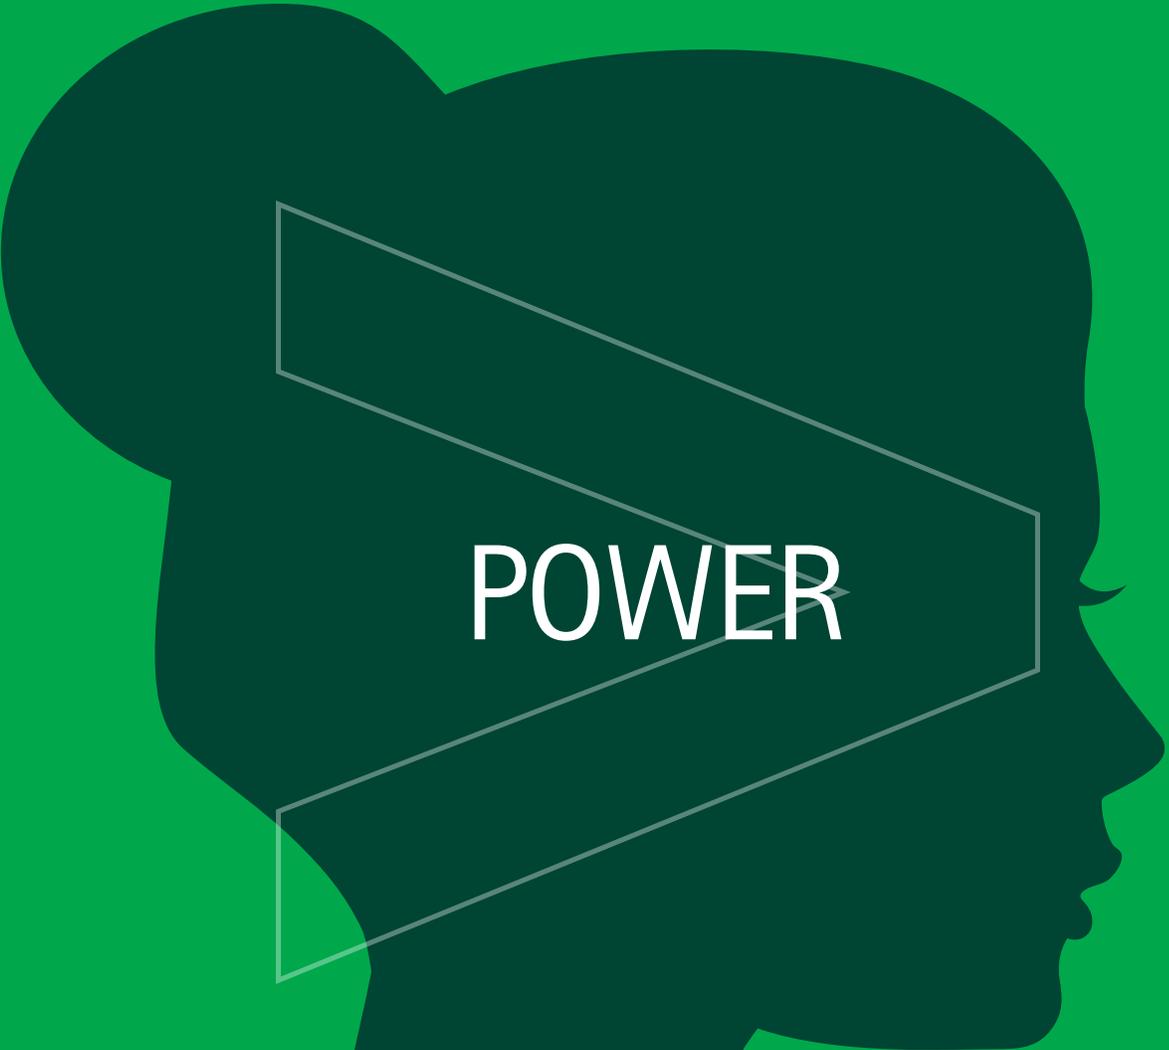

Mobility – all things mobile. Here, we create end-to-end solutions and work with mobility strategy, app development and testing, the Internet of Things, connected devices, and embedded software.

Analytics – our insights engine-room. This is where we gather data and information on sales, customers, marketing, operations, fraud and risk, talent/HR and performance.

Your background

Are you a switched-on, forward-looking visionary? If you're agile, tech-savvy, and love learning, you'll fit right in at Accenture Digital.

- Well-rounded digital skills
- Open, entrepreneurial and collaborative mindset
- Technical proficiency and/or experience
- Strong will to build your tech skills further
- Ability to design user experiences

POWER

At Accenture Technology, your knowledge of information architecture will place the next wave of disruptive technology in your capable hands. Create custom-designed solutions for leading organisations, using integration, development, architecture and tech platforms to drive innovation and power global change.

We revolutionise how people work, live and interact. It sounds like an important job, and it is! Every day, we power world-leading businesses and governments around the globe by solving tech issues, building custom solutions, integrating platforms, and much more.

Here, you can work alongside global leaders like SAP, Oracle, Microsoft, Salesforce.com, HP and Cisco. Accenture Technology Labs and Studios is where we break new ground, pushing limits to achieve incredible results for our clients—like creating a finance and procurement system in just 57 days. That's a record!

Your future

Join Accenture Technology and you'll translate operational needs into the innovative technical solutions that enable clients to better serve their customers—your friends, family and neighbors.

Every day is different when you're surrounded by innovative products and technologies. Here, you can help to design, develop and deliver new software, applications and technology solutions, or take your career to the next level with roles in management or client relationships.
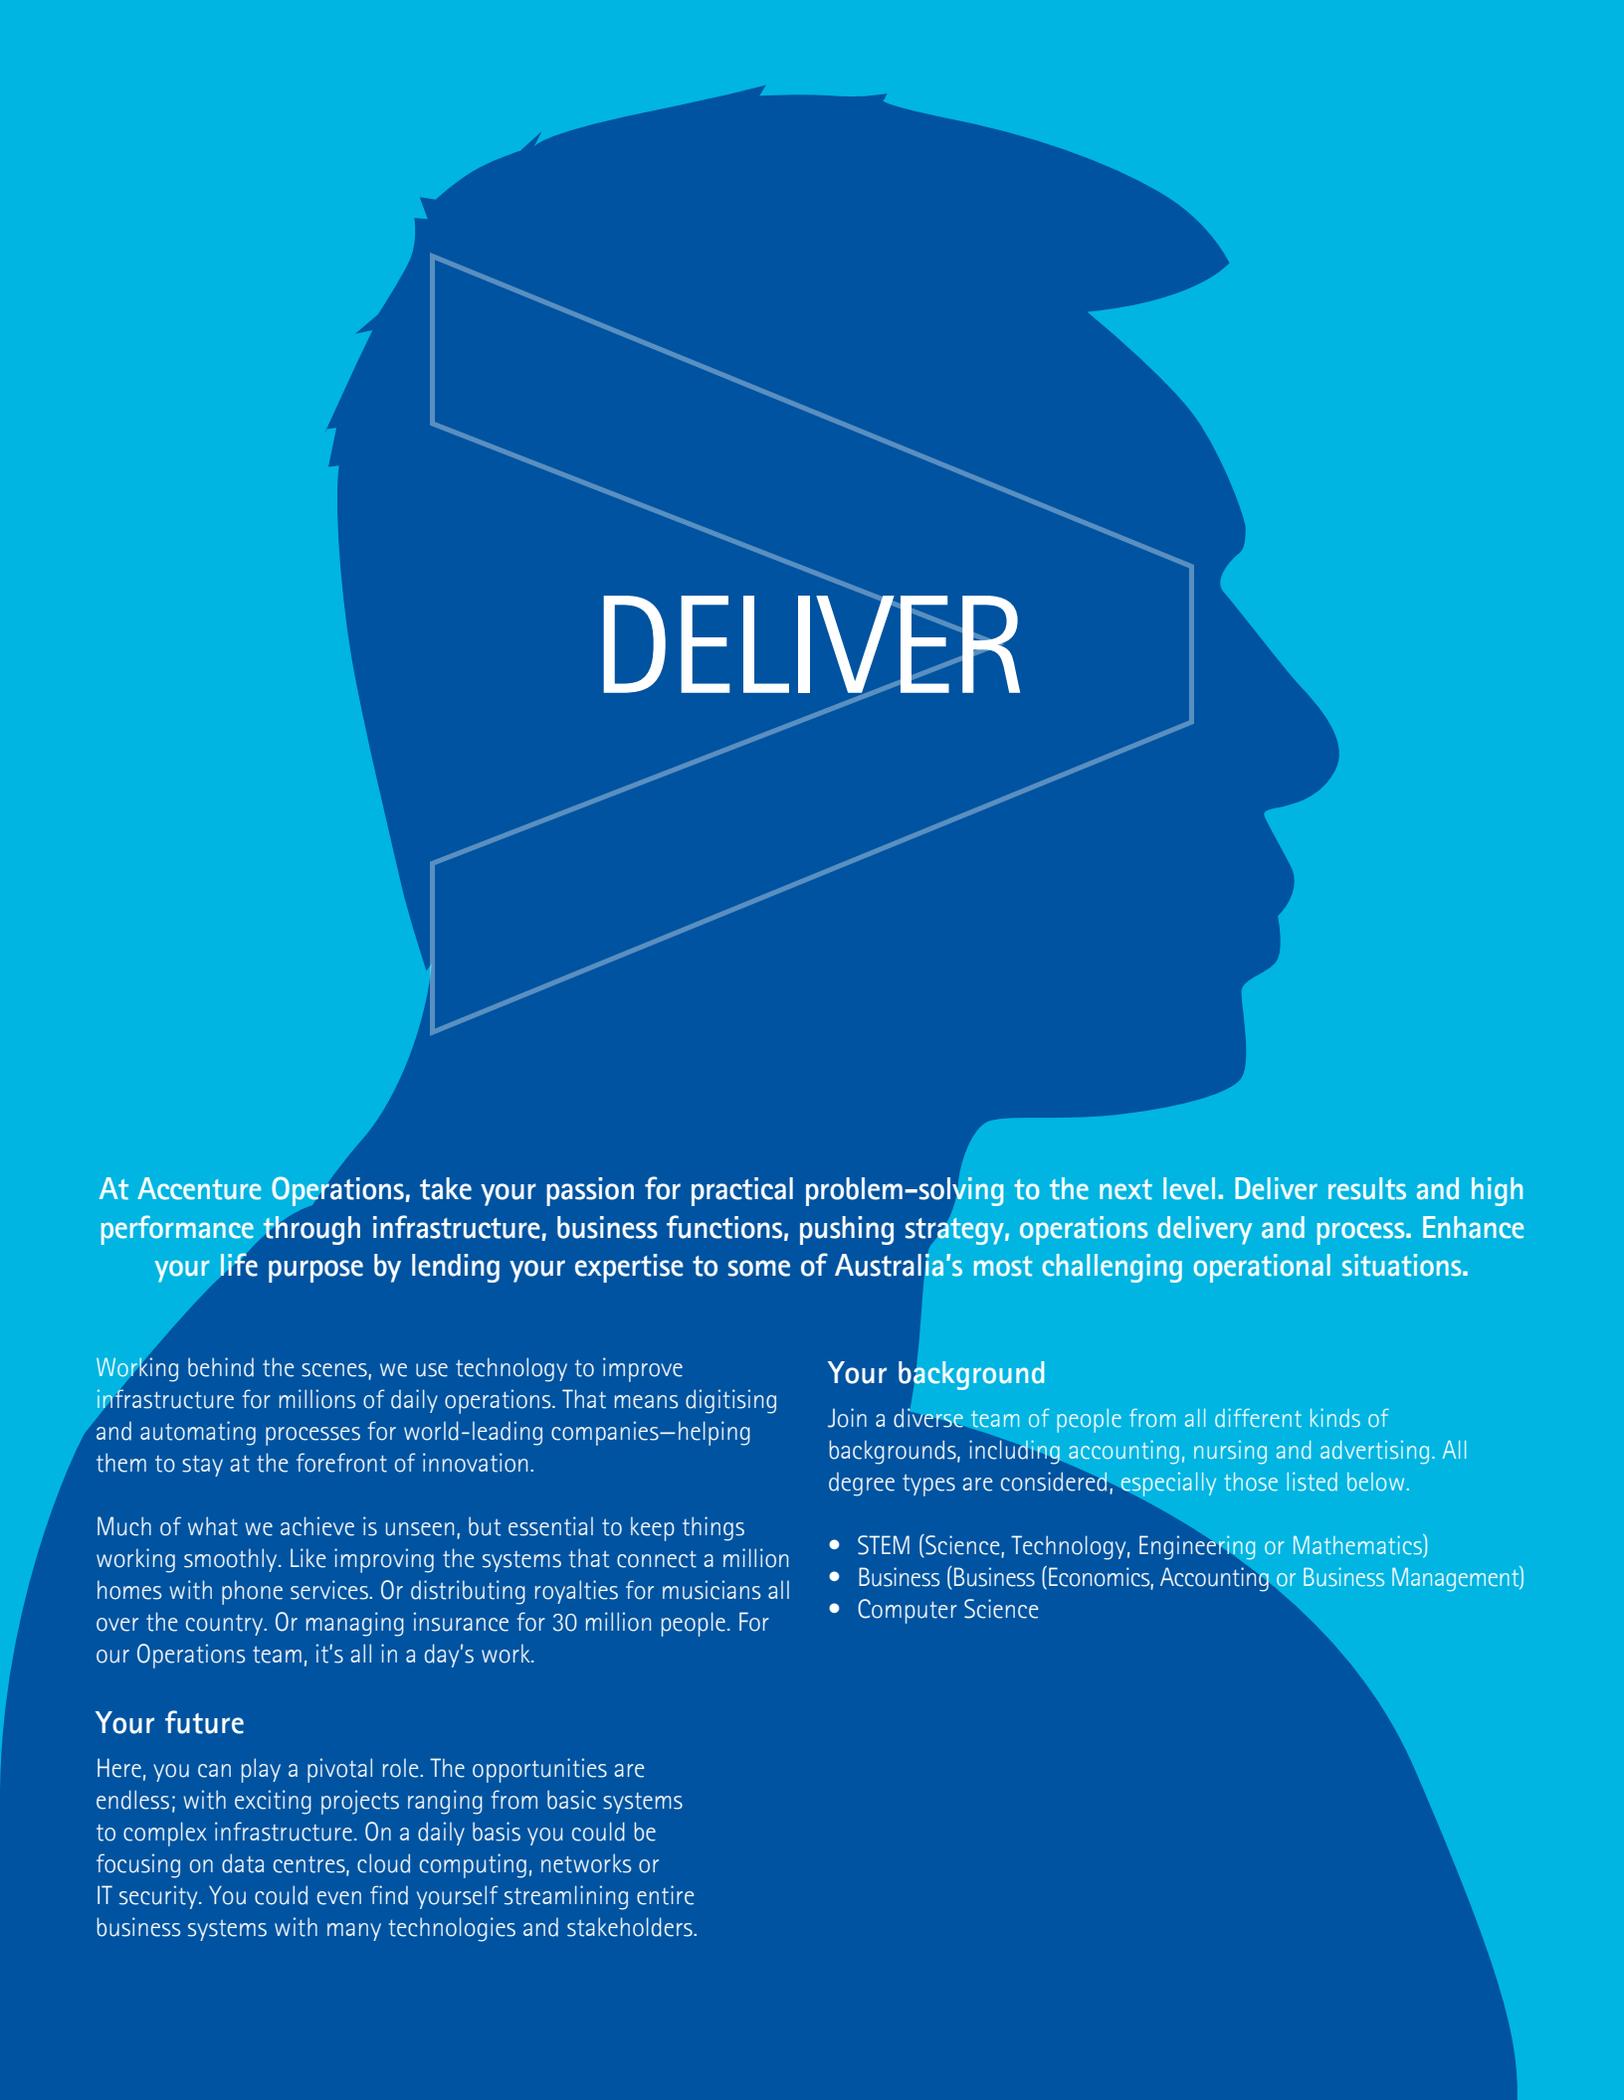

Your background

Are you passionate about using technology to drive innovative change? With dozens of opportunities in our two key areas, there's sure to be one that matches your skills and experience.

Technology Consulting
- Passion for technology and openness to new ideas
- Entrepreneurial spirit and adventurous attitude
- Adaptability and able to work in unstructured situations
- High-level presence for communicating at executive levels

Technology Delivery/Operations
- Technical proficiency and/or experience
- Strong will to build your tech skills further
- Excellent delivery and operations skills
- Complete commitment to quality
- A service-oriented mindset

DELIVER

At Accenture Operations, take your passion for practical problem-solving to the next level. Deliver results and high performance through infrastructure, business functions, pushing strategy, operations delivery and process. Enhance your life purpose by lending your expertise to some of Australia's most challenging operational situations.

Working behind the scenes, we use technology to improve infrastructure for millions of daily operations. That means digitising and automating processes for world-leading companies—helping them to stay at the forefront of innovation.

Much of what we achieve is unseen, but essential to keep things working smoothly. Like improving the systems that connect a million homes with phone services. Or distributing royalties for musicians all over the country. Or managing insurance for 30 million people. For our Operations team, it's all in a day's work.

Your future

Here, you can play a pivotal role. The opportunities are endless; with exciting projects ranging from basic systems to complex infrastructure. On a daily basis you could be focusing on data centres, cloud computing, networks or IT security. You could even find yourself streamlining entire business systems with many technologies and stakeholders.

Your background

Join a diverse team of people from all different kinds of backgrounds, including accounting, nursing and advertising. All degree types are considered, especially those listed below.

- STEM (Science, Technology, Engineering or Mathematics)
- Business (Business (Economics, Accounting or Business Management)
- Computer Science

About Accenture

Accenture is a global professional services company comprising five areas of business: Strategy, Consulting, Digital, Technology and Operations. We partner with 80% of Fortune 500 companies, driving innovation to improve the way the world works and lives.

We work in virtually every industry on the planet, providing a broad range of services and solutions. We service clients in more than 120 countries, helping organisations to reinvent themselves, inspiring them to imagine grand futures, and implementing transformational outcomes for a demanding new digital world.
