

The Accenture logo is centered in the top middle panel. It features the word "accenture" in a lowercase, sans-serif font, with a white greater-than sign (>) positioned above the letter 't'. Below the logo, the tagline "High performance. Delivered." is written in a smaller, white, sans-serif font. The background of this panel is a vibrant blue. The entire advertisement is composed of a 3x3 grid of colored squares, each containing a silhouette of a person's head and shoulders in profile, facing right. The colors of the squares are: top row (purple, blue, green), middle row (green, red, yellow), and bottom row (blue, yellow, purple). The silhouettes are in various shades of blue, green, and black, matching the colors of the squares they are placed on. A white geometric shape, resembling a stylized 'A' or a speech bubble, is overlaid on the central panels, framing the main text.

accenture

High performance. Delivered.

YOUR
CAREER.
YOUR
ADVENTURE.

Strategy | Consulting | Digital | Technology | Operations

Let the adventure begin.

With Accenture you will be embarking on more than a career. You will be taking on an adventure that links you to a leading global professional services company, providing a broad range of services and solutions in strategy, consulting, digital, technology and operations. With specialised skills across more than 40 industries and all business functions, we're underpinned by the world's largest delivery network—working at the intersection of business and technology to help clients improve their performance and create sustainable value. There's more than 373,000 people serving clients in over 120 countries at Accenture. Driving innovation and improving the way the world works and lives.

Get the experience.

Whatever course or year of study you are in, there's an Accenture Program for you.

Accenture Graduate Roles

Build a rewarding career. Right from day one. Join our graduate team and gain practical, hands-on experience. During the program, you will work across the full lifecycle of a project, being able to see your ideas turn into a reality.

Technology Future Leaders Program

A two-year program that will equip you for a future Technology role. You will be given the chance to expand your knowledge of today's emerging technologies.

Women In Technology

An informative and inspiring series of events and seminars. Women in Technology is a great way to hear from talented Accenture professionals about the latest developments. You will also get the opportunity to network with your peers as well as participate in campus workshops.

The Digital Revolution Challenge

Solve one of our business scenarios and you could be in with a chance to win a paid Internship with Accenture Digital at our offices in Sydney or Melbourne. Terms & conditions apply. Visit our website for more information.

Accenture Adventure

This one-day event puts you on the fast track to securing your own graduate role. If you're a year away from graduating, apply and you could enter your final year confident in the knowledge you'll be joining Accenture when you complete your studies.

Internships

Throughout the year a range of internships are available subject to business demand. To remain fully informed check our website regularly.

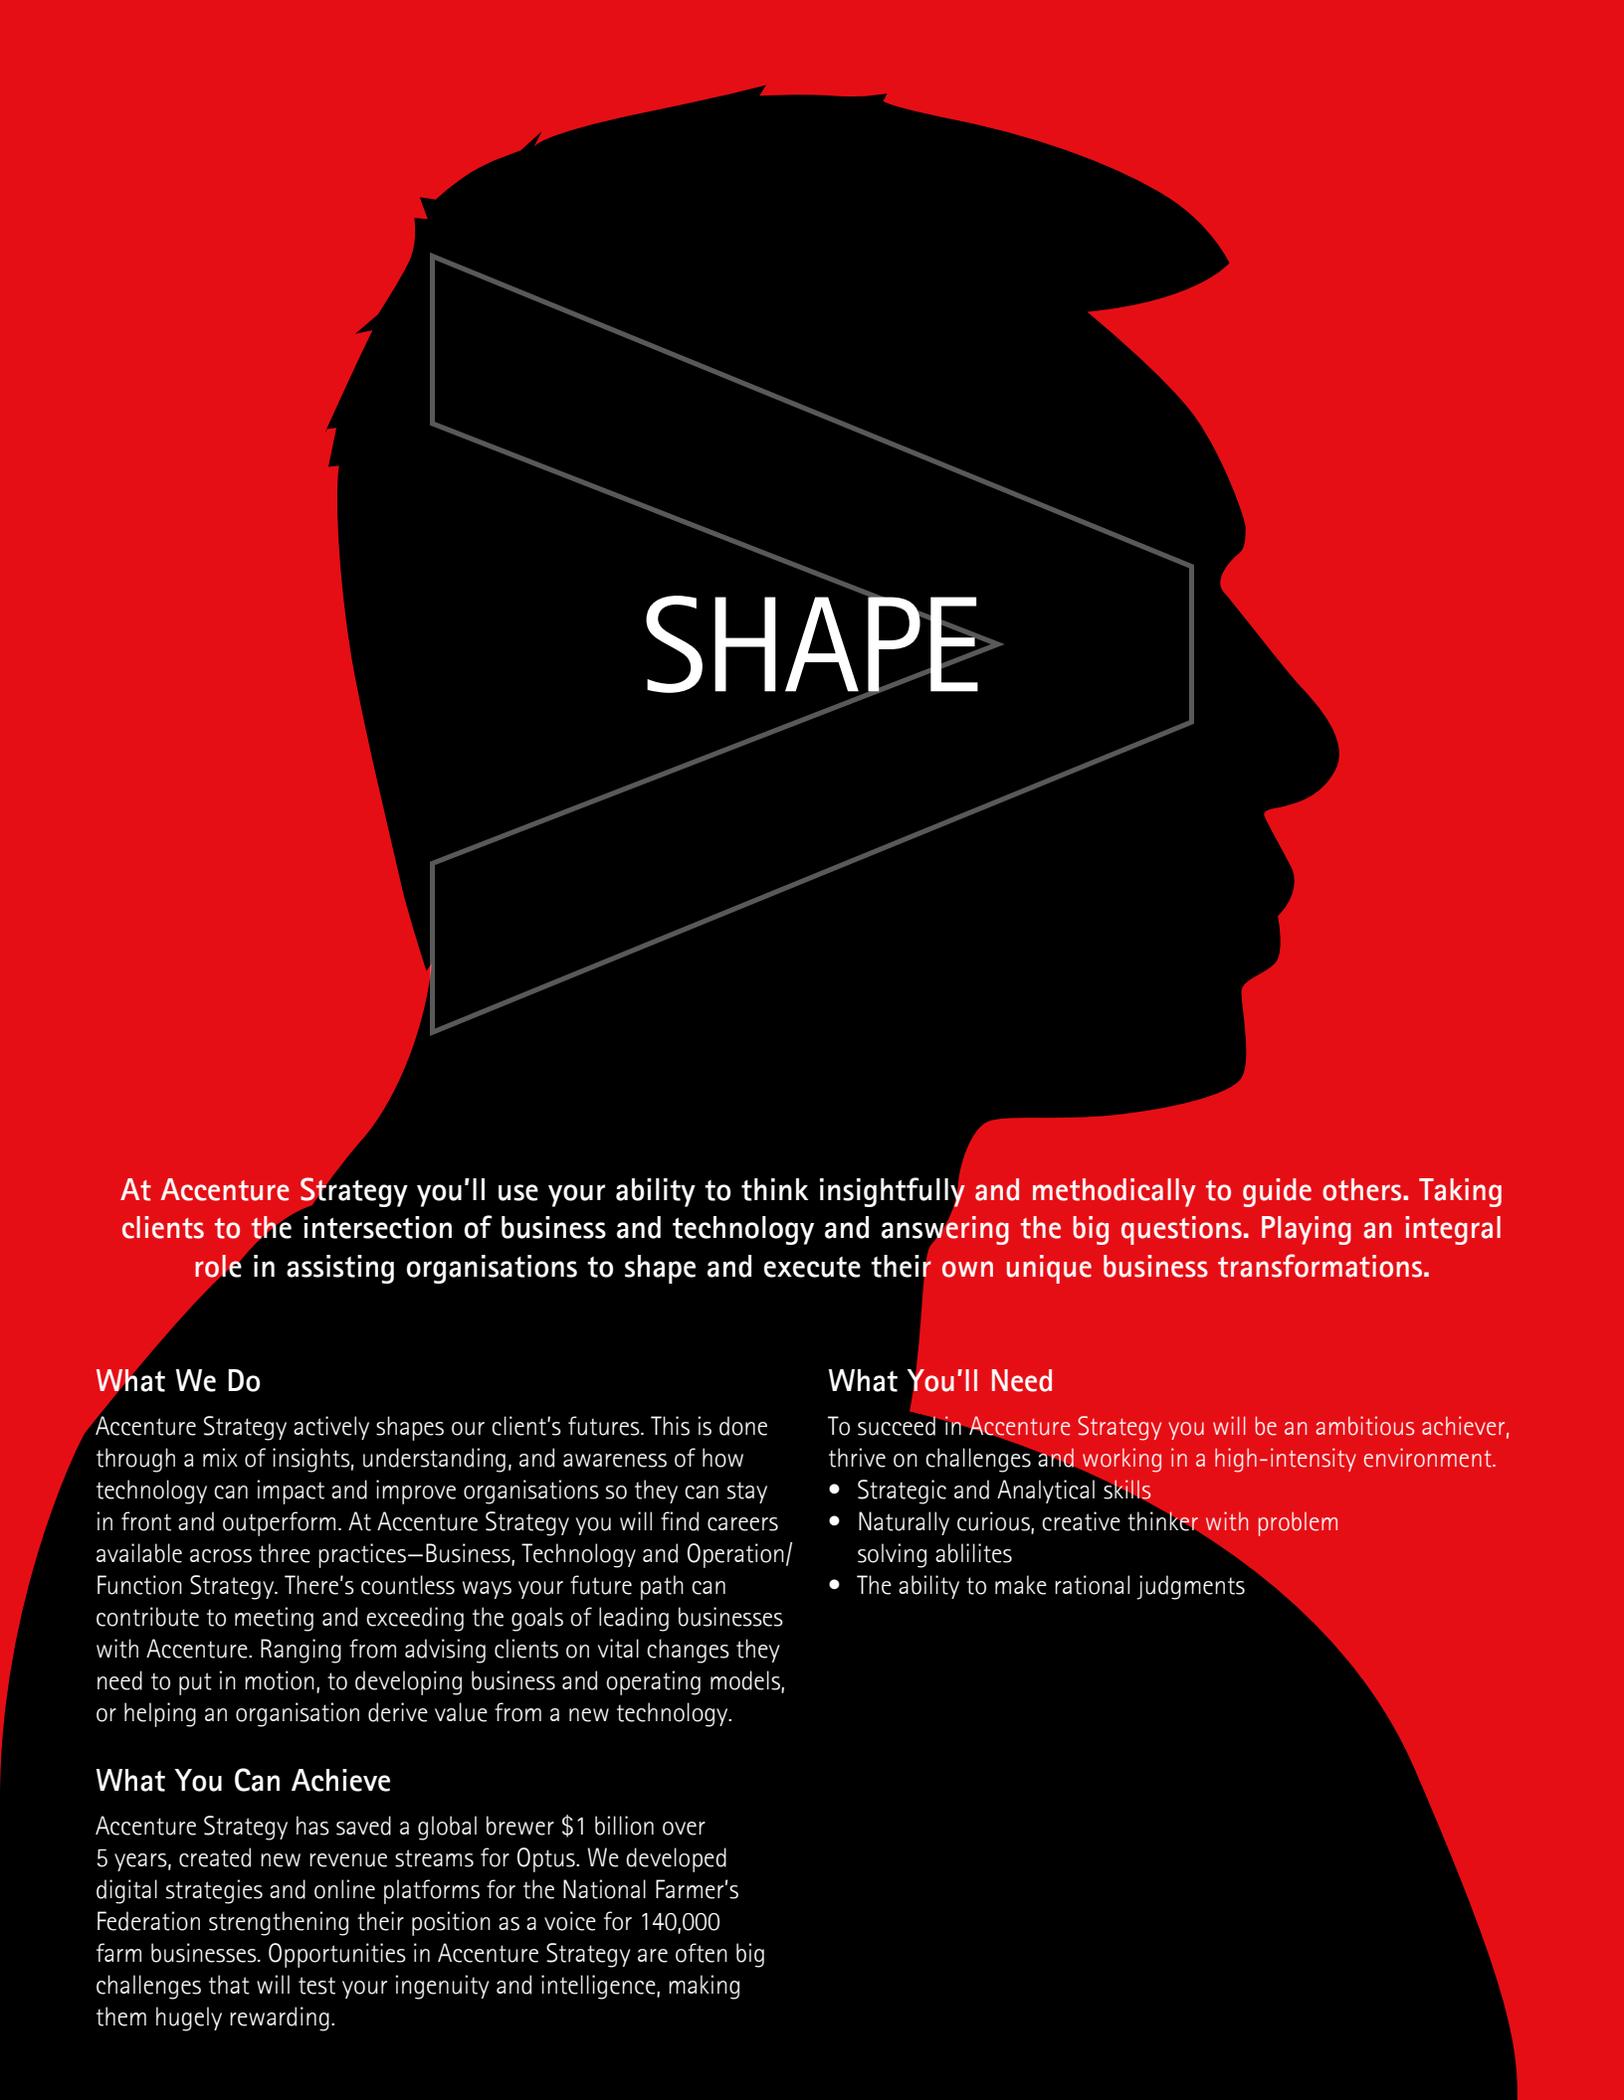

Apply Now

Accenture welcome applications from students who are Australian or NZ citizens, or permanent residents. Opening and closing dates can vary depending on the program. For full details and dates see our graduate career site.

**YOUR CAREER.
YOUR ADVENTURE.**

SHAPE

At Accenture Strategy you'll use your ability to think insightfully and methodically to guide others. Taking clients to the intersection of business and technology and answering the big questions. Playing an integral role in assisting organisations to shape and execute their own unique business transformations.

What We Do

Accenture Strategy actively shapes our client's futures. This is done through a mix of insights, understanding, and awareness of how technology can impact and improve organisations so they can stay in front and outperform. At Accenture Strategy you will find careers available across three practices—Business, Technology and Operation/Function Strategy. There's countless ways your future path can contribute to meeting and exceeding the goals of leading businesses with Accenture. Ranging from advising clients on vital changes they need to put in motion, to developing business and operating models, or helping an organisation derive value from a new technology.

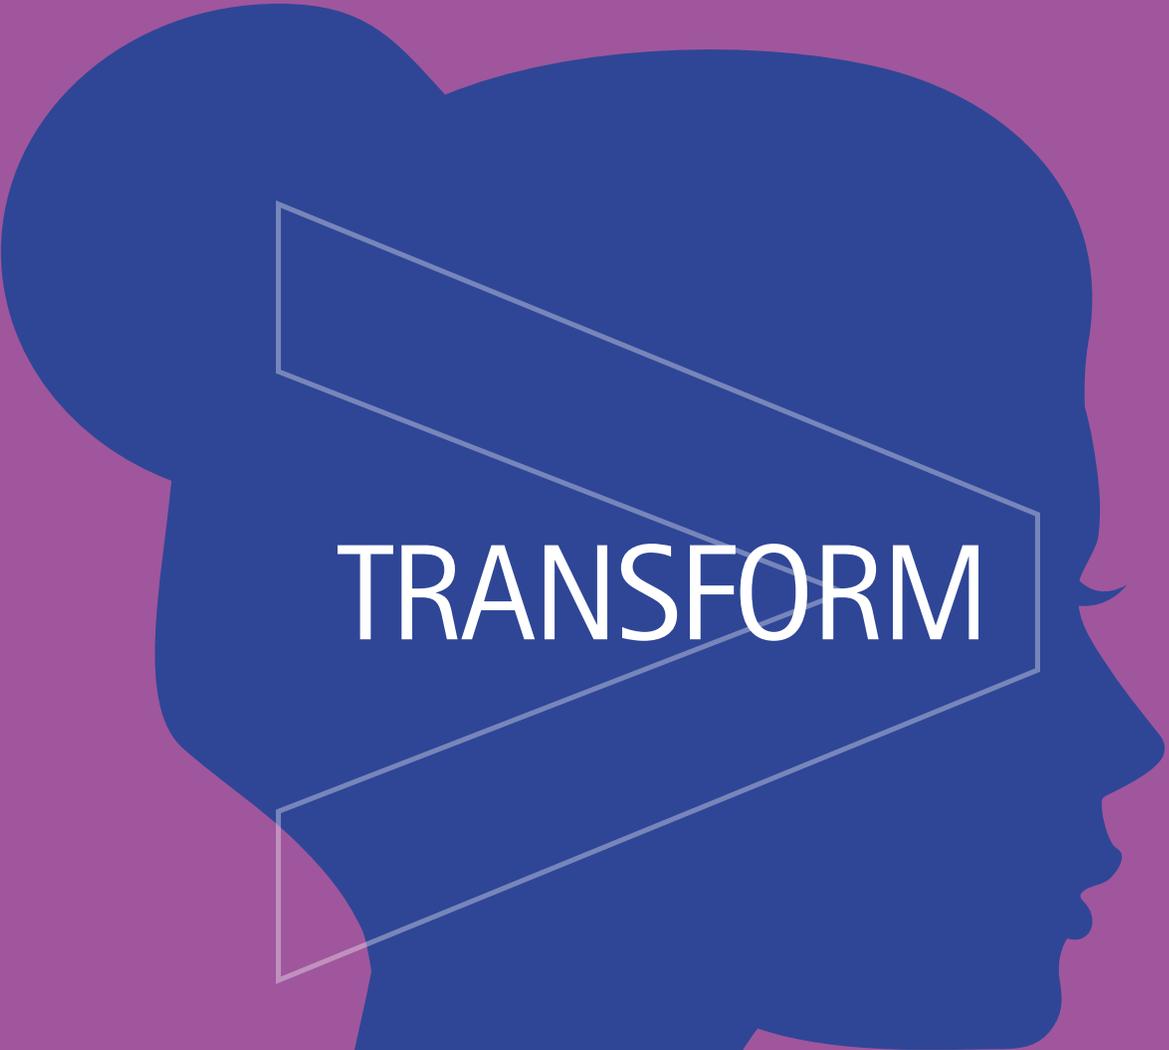

What You Can Achieve

Accenture Strategy has saved a global brewer \$1 billion over 5 years, created new revenue streams for Optus. We developed digital strategies and online platforms for the National Farmer's Federation strengthening their position as a voice for 140,000 farm businesses. Opportunities in Accenture Strategy are often big challenges that will test your ingenuity and intelligence, making them hugely rewarding.

What You'll Need

To succeed in Accenture Strategy you will be an ambitious achiever, thrive on challenges and working in a high-intensity environment.

- Strategic and Analytical skills
- Naturally curious, creative thinker with problem solving abilities
- The ability to make rational judgments

TRANSFORM

At Accenture Consulting you'll be able to utilise your vision and foresight to create organisational difference. Embracing fresh, exciting challenges, more often. Share your insights and capabilities with countless leading organisations. Showing them the way to reach their goals.

What We Do

Working in Accenture Consulting will see you collaborating regularly across the entire Accenture organisation to develop insights that transform companies and governments. As a result, you will mix with experts in Strategy, Digital, Technology and Operations as well as Consulting. We serve the needs of clients in an enormous number of industries—including Automotive and Industrial, Banking, Capital Markets, Chemicals, Communications, Media and Technology, Consumer Goods and Services, Energy, Health, Insurance, Life Sciences, Natural Resources, Public Service, Retail, Travel and Utilities. Many consulting roles are industry specific, which means you can build outstanding specialised skills.

What You Can Achieve

Imagine being a part of projects that have resulted in 350% growth for Uniqlo, created world-leading diagnostic processes for Roche and created cutting edge content and fan engagement opportunities for Australian Rugby Union. It's all possible and a whole lot more with Accenture Consulting.

What You'll Need

Ideally you will be an academic performer, with an agile, entrepreneurial and collaborative attitude. All degrees are considered, but graduates who can show the following characteristics will be looked on favourably:

- A strong entrepreneurial instinct and a willingness to take calculated risks
- Adaptable to change and able to successfully operate in undefined, unstructured situations
- A competent communicator with a high level of executive presence
- Able to convey detailed industry knowledge professionally (Finance/Health/Public Services/Communication/Media Resources/ Retail)

DIGITIZE

At Accenture Digital you'll be able to spark your technical capabilities into action. Re-engineering businesses and governments. From backend process to front-end UX. Drive delivery and take control—via digital services and solutions that encompass cloud, mobile, analytics, interactive, social—and that's just the start.

What We Do

Accenture Digital gives our clients the speed, scale, ideas, connections and knowledge they need to succeed. Accenture Digital is spread across 3 areas - Interactive, Mobility and Analytics. Interactive focuses on assisting brands and includes Reactive and Fjord, two of our interactive companies. Reactive are an award winning digital agency that combines strategy, creative and technology, while Fjord are a design and innovation consultancy that specialise in end-to-end digital design. Our interactive division and companies all work to improve digital experiences, through marketing, social media, ecommerce, customer experience, design and innovation, sales and customer service. Mobility looks at end-to-end solutions within mobility strategy, app development & testing, connected products (Internet of Things), connected devices and embedded software. Analytics is our insights engine-room, gathering data and information with regard to sales, customers, marketing, operations, fraud & risk, talent/HR and performance.

What You Can Achieve

The turns you take in this area are constantly changing, so there's always interesting and challenging projects to work on. Accenture Digital has provided Cricket Australia with live streaming capabilities and the Australian Youth Orchestra with digital connections that allow musicians to audition remotely. We're even assisting an international water company to monitor their supplies using mobile technology.

What You'll Need

Those in Accenture Digital are switched on, forward looking visionaries. They are also strong innovators with a high capacity for learning who are agile and technically savvy. We're constantly looking at ways to improve interactions, experiences and performance for our clients and value digital professionals who can share this commitment.

For Accenture Digital you will need:

- Well-rounded digital skills
- An open, entrepreneurial and collaborative mindset
- Technical proficiency and/or experience
- Strong will to build your tech skills further

POWER

At Accenture Technology you'll be able to really use your knowledge of information architecture. Picture this. The next wave of disruptive technology in your hands. Ready for you to create custom-designed solutions. Using Integration, Development, Architecture and Tech Platforms to drive innovation.

What We Do

Accenture Technology revolutionises how people work, live, interact and connect each day. Powering the world's leading businesses, we solve complex tech issues and build customised solutions. Not to mention integrating platforms into existing operations. Accenture doesn't just stand alone in what we do, we're aligned with the top tech leaders globally, including SAP, Oracle, Microsoft, Salesforce.com, Cisco and HP. Accenture Technology Labs is where we break new ground. Pushing the expected limits to achieve incredible results for our clients. For example Accenture Technology leveraged our global experience and Oracle partnership to create a finance and procurement system for NBNCo in a record 57 days.

What You Can Achieve

Play a part in developing new products and creating and harnessing new technologies. Work with clients to leverage software, applications and technology solutions. Accenture Technology offer roles for individuals who are interested in both managing, maintaining and leading client relationships as well as designing, developing and delivering solutions and services that solve the problems of businesses and governments around the world.

What You'll Need

The people who work in this area are passionate about using and innovating with technology to drive change. They're intelligent, friendly types who love what they do, enjoy collaborating and sharing knowledge and having fun along the way. They also share a strong desire to acquire knowledge, and grow their abilities.

Technology Consulting Area

In this area you will need:

- A passion for technology
- Entrepreneurial spirit and an adventurous attitude
- The ability to work in undefined, unstructured situations
- An adaptable nature that is open to new ideas
- A high-level presence allowing you to communicate well at executive levels

Technology Delivery/Operations Area

In this area you will need:

- Technical proficiency and/or experience
- Strong will to build your tech skills further
- Deep delivery and operations skills with a focus on excellence
- Complete commitment to quality
- A service-oriented mindset

A dark blue silhouette of a person's head and shoulders in profile, facing right. The person is wearing a cap. The word "DELIVER" is written in white, bold, uppercase letters across the forehead area of the silhouette. A white geometric shape, resembling a stylized 'D' or a partial rectangle, is overlaid on the silhouette, framing the word and extending down the side of the face.

DELIVER

At Accenture Operations your passion for practical problem solving can be taken to the next level. With us you'll take business functions, and make them perform. Pushing strategy, operations delivery and process. Lending your expertise to some of our country's most challenging operational problems.

What We Do

Accenture Operations combines technology that digitises and automates business processes. Providing operational infrastructure which facilitates millions of daily operations. Including everything from the most basic, to the most highly complex. Much of what we achieve is unseen by many, but essential to the running of major companies. Some examples include—ensuring the wellness of over 40 million people via enrolment management for 20 million insurance members, distributing royalty fees for nearly 1 million musicians and assisting beyond 1 million homes establish phone services so they can stay connected.

What You Can Achieve

In many instances, what you do will be vital to ensuring businesses maintain and grow their functions. This can be anything from managing data centres, cloud computing, networks and IT security, right through to ensuring that an entire business system, involving multiple technologies and stakeholders works effortlessly and seamlessly.

What You'll Need

The range of people in Accenture Operations is one of the most diversified within our business. We hire accountants, nurses, advertising executives, as well as economists. As a result all degree disciplines are considered, however these are preferred:

- STEM degree (Science, Technology, Engineering or Mathematics)
- Business degree (eg. Economics, Accounting, Business Management)
- Computer Science
