

WORK AT THE HEART OF CHANGE

Vali: When I joined Accenture 4 years ago, I was welcomed by one of the best communities I have ever been in. I met amazing people, who later on became my friends. and whom I know I can count on for both professional and moral support.

Vali: My managers have always been supportive regarding my career decisions or changes I wanted to bring to any project. Not only that, but I know I can always count on them for advice.

Vali: In Accenture, we all work at the heart of change. And when we match our ingenuity with the latest technology, we make incredible things.

Vali: Being part of this team, you can always choose to change the project and technologies so that you can either test your skills on a more challenging project or learn new technologies altogether. Learning something new comes easy as we count on a big community of experts, as well as the best learning materials and tools.

Vali: Last but not least, I discovered that the most important thing is self-care. Being well rested, being in a relaxed state of mind and having a good morale generate the best results. In Accenture, I found a good work-life balance that allows me to grow my skills while having time for family, friends, and myself.

Vali: Here, it's all about what and who you want to be.

Come work at the heart of change!
