

# BLACK HAT 2019 CYBER RESILIENCY

## VIDEO TRANSCRIPT

**Kelly Bissell, Global  
Managing Director,  
Accenture Security**

“Our clients need cyber resilience across their whole ecosystem, and it's not a point solution like you find in the marketplace. It is helping them from the oil rig through the refinery plants, through the trading system, and ultimately the gas pumps. So, it's their whole business, including their suppliers. That's what we do.”
