Accenture Mobility Recruitment Video

Transcript

Join us to use your mobility skills and Be Greater Than.

Speaker 1: Accenture was a pioneer and also an innovator in the digital space before we even called it digital. Mobility is very exciting, it is not just you interacting with a device but it's you interacting with the rest of the world.

Speaker 2: Accenture can bring the right skills on the table from strategy definition to technology implementation to business operation.

Speaker 3: Being able to be exposed to new technologies and innovative use cases then being able to really drive the digital industry further into the future.

Speaker 1: We've built Google Glass prototypes for doctors to use in hospitals and for technicians to use out in the field.

Speaker 4: Accenture is a really great place to work that can take you a lot of places, this is the chance to make a difference in the world.

Speaker 2: What I enjoy most about working with my team is the opportunity to let them grow as professionals, coaching and mentoring them, helping them grow their skills and collectively building knowledge capital.

Speaker 1: I love working in digital because people get it, it's something that we use in our everyday lives. Doing Digital at Accenture, is really the place to be.
