Technology for People

Video Transcript

“Over the last century, we’ve transitioned to an online world with billions of viewpoints; not just from our governments and businesses, but from each and every one of us.”

“Today, we need technology for the people. Technology that works with us, designed to amplify our voices, our hopes and our ambitions.”

TECHNOLOGY VISION 2017

AMPLIFY CREATIVITY

“Sophisticated AI will make interfaces simpler and smarter, replacing cumbersome tools and working with people to fulfil their true priorities.”

AMPLIFY FREEDOM

“Technology will adapt based on how we want to interact. People will choose the direction and technology will teach itself to follow.”

AMPLIFY RELATIONSHIPS

“People won’t be restricted by process, but instead will be free to build stronger relationships, augmented by technology.”
