

ACCENTURE CONSULTING CAREERS IN FINANCIAL SERVICES

VIDEO TRANSCRIPT

Grow your career transforming Financial Services clients.

Adrien Kirschfink: Hi, my name is Adrien and the energy of my colleagues at Accenture inspire me to give my best every day.

I think the key to success at Accenture is really collaboration and striving to make your clients successful.

Alice Chou: Hi, my name is Alice and engaging with my client really inspires me.

One of the great things about working at Accenture is that it will challenge you to develop skills that you maybe didn't have before.

Matthew Perry: Hi, my name is Matthew and setting and achieving goals inspires me.

Managing Director was my goal five years ago and being able to say, "Five years later I've done it." Now that's, that's amazing for me.

Alice Chou: Accenture is known for not only being able to propose a strategy and approach, but also really being able to deliver the work on the ground with our clients, and that's what really allows us to be transformational in Financial Services.

Matthew Perry: Accenture's impact is really far reaching. It's in our daily lives and in some ways we don't even realize that.

Adrien Kirschfink: Traditionally banks have been relying heavily on their branch network. Nowadays every day you look up your banking app, that is Accenture. We are actually making sure that you can access that information 24/7.

Adrien Kirschfink: Accenture is changing every day.

Alice Chou: Accenture is teamwork.

Matthew Perry: Accenture is transformational.

Matthew Perry: Financial Services - you can do a strategy project to bring a new product to market, you can do an assessment of a new regulation that impacts a global bank. What about the algorithms around the risk analytics that go along with that? That's what we do.

Alice Chou: When we're looking to add people to our team, we're really looking to find people with adaptable communication styles. Matthew Perry Someone who is flexible, someone who comes in with a smile.

Adrien Kirschfink: Financial Services is at the edge of disruption right now. It is a great opportunity to be part of that shaping the Financial Services industry of tomorrow.
