

WE ARE LOOKING FOR PEOPLE LIKE YOU, JOIN US TODAY

Hi, my name is Sarah Kruger. I am the Managing Director responsible for Talent and Organisation within Financial Services Australia and New Zealand. And I've been working in this role for a number of years now. I also apply a number of other roles within Financial Services. One being around our people in engagement and making sure that we do everything we can to have a home for our people within Financial Services. As well Inclusion and Diversity and making sure that we are an organisation that factors in the need to be diverse and the value that you get from having a diverse team. These are the things that are very important to us within Accenture and i am very honored to have those roles within the Accenture team.

Accenture has given me some amazing opportunities over the years. I've not only worked with really interesting clients and great project team with some very very smart people, I've done really different things and I've done different things in a consistent way on a day to day basis. I've also been able to work in a flexible way, and I've been able to juggle the different things that I have going on in my life throughout that period of time. And I've been able to take that opportunity because

I always have the support of great mentors, coaches and people that I have worked with within the Accenture environment. I've been able to really develop as an individual as well providing support to clients on a regular basis. And I think that's a fantastic place for me to be an as individual and always feel like I'm contributing to the work that i do on a day to day basis.

So if doing interesting work, working with fantastic people, working with different organisations across the Financial Services industry is something that interest you, we'd love to see your application and we'd love for you to be part of our team.
