Vimod

I have joined Accenture in the year 2008. My first role was be a developer and then moved on to Project Management PMO... and from there on it's been a good journey so far.

So my journey with respect to violin started when I was in class 5 and joined an institute to learn about Violin and from there every day I try to a play for 1 hour or half an hour. It's like meditation for me, gives me peace. If I don't play Violin a day...it just feels a void.

Violin has helped me a lot... not only with respect to job or the work that I do and also in my personal life as well.

So whenever there is some leadership connects happen, leadership encourages us... those who are interested to perform. So this way Accenture is really helping us seek your passion. Accenture provides you with various opportunities to make sure you can do what you want to do.
