

APPLY YOUR KNOW- HOW

Hi, Im Negar and I'm a Supply Chain and Operations Consultant within the Communications, Media and Technology practice at Accenture.

At Accenture, I have had the opportunity to work with some of the best people within our organisation and I owe them my growth to sharing the best practices from my colleagues both from Australia and overseas.

I have the opportunity to work on several roles with the Communications, Media and Technology practices, most recently the implementation of business process improvement for the roll out and construction of Australia's largest telecommunications project.

I'm given the opportunity to challenge myself on a daily basis and this is a really an important aspect of Accenture for me not only for my own personal growth but also to ensure I'm providing only the best solution for my clients.

I've had the opportunity to complete training both overseas and within Australia. And I'm always looking forward to the next opportunity that Accenture has to offer me.

The Supply Chain and Operations practice is collaborative and innovative and we're really looking forward to having you as part of our team and to take the Accenture journey with us.
