High performance. Delivered.

Digital Infrastructure

Video Transcript

Roberto Gallardo

Imagine the future ... A more digital world, where we build connected infrastructures... that allow us connect with end users, provide new services, and generate new business opportunities...

Imagine...

- ... connected roads:
 - oThat provide users real-time information and adapt themselves to traffic needs of the traffic
 - oThat are sustainable
 - oThat efficiently manage traffic emissions.
- ... roads that look after the safety of their users:
- ... That guide and entertain
- ... that enable a better future

... Roads that generate new experiences:

- And open the door to new business opportunities ...

Imagine the future... a digital construction company:

- Whose civil works are actually connected factories
- With sensors enabling activity supervision and control
- And workers all time connected
- Materials produced by 3D printers
- And the most accurate information
- Integrated, analyzed and accessible

Imagine... a digitally operated infrastructure:

Controlled centrally...

- With alarm systems for unforeseen situations, predictive maintenance actions
- And a Connected Supply Chain

Imagine the future... where services will be connected:
Imagine... Accenture
