00:13 the best AI event in a while we saw the
00:18 fact that AI was going to change
00:20 everything and we felt we needed to
00:22 create an event to celebrate the
00:24 incredible opportunity that AI
00:25 represents but also highlight some of
00:27 the challenges and you know we have this
00:30 idea of how do we move the conversation
00:31 forward and put the right foundations in
00:33 place to make sure that we get it right
00:35 last year we had 1,300 people this year
00:39 we 5x2 we had six and a half thousand
00:41 people down here making it probably
00:43 biggest a eye focused event in the world
00:46 across seven main stages 17 stages in
00:49 total 300 speakers all the attendees it

00:53 was just a massive massive gathering of
00:56 brains you know we couldn't have been
00:58 happier with the outcome

01:05 know that Robles a fear there was like
01:07 was a super-realistic face like that was
01:10 crazy man it's great opportunity for us
01:12 you know get our profile out there see
01:14 what other guys doing and and what sorts
01:16 of trends that coming out of these
01:18 technologies I guess fascinating it's
01:20 just a huge you know vision into the
01:22 future full room just completely
