

POWERFUL MINDS.

VIDEO TRANSCRIPT

The world is full of different minds.
Different skills.
Different strengths.
There's power in difference.
So how do these minds work?

Adaptive minds --
Out with the old, in with the new,
Embracing every obstacle. Fearless in the face
of change.

Analytical minds --
The information addicts. Big on data, big on
facts.
They're buzzing with ideas until,
That lightbulb moment.

Action minds --
The go-out-and-get-it types, the
Never-sitting-still types.
The real change makers.

Reflective minds --
Masters in the art of
Stopping.
And thinking.
Before they make their call.

Collaborative minds --
Who stand strong with others.
Taking teamwork to another level.
The glue that holds everyone
Together.

All these minds, their skills,
Their strengths --
That's what makes us powerful --
That's what makes us Accenture.

Come and see where you
-- can apply your Powerful Mind.
