ACCENTURE MYCONCERTO

Operating in a world with rapidly emerging technology trends and digital disruptions is the new normal for ALL industries.

But what type of business is succeeding by staying in tune with the challenges and opportunities of today’s digitally disruptive markets? What type of business is not only surviving, but thriving? It’s the INTELLIGENT ENTERPRISE.

Accenture can help you build an Intelligent Enterprise with myConcerto – our digital solutions and delivery platform. It strikes the right chord by bringing together ALL the best of Accenture’s thought leadership, capabilities and solutions, working in harmony, to address your business challenges and amplify your business outcomes.

MyConcerto taps into the power of major software platforms and technologies to help you transform to an Intelligent Enterprise.

These building blocks are essential to your digital transformation by unleashing innovation, agility, and identifying trapped sources of economic value.

Using Accenture’s proven playlist of accelerators and pre-built industry and functional solutions, myConcerto will deliver your transformation faster, by helping you make the right strategic decisions, so value and benefits can be realized quickly.

myConcerto sets the tempo while creating your intelligent business model, business case, and roadmap…

…and then applies automation and intelligence to deliver your new capabilities with speed, agility, and continuous innovation.

And because myConcerto is modular and customizable, you can step in for assistance and guidance no matter where you are on your journey.

Stop playing the same old tune. Start your Intelligent Enterprise and digital transformation now with Accenture and myConcerto.
