Risks with the greatest impact on surveyed banks compared with two years ago:
1. Disruptive technology
2. Data privacy/breach
3. Operational risk
4. Financial risk
5. Strategic risk

Many risk managers are not fully capable of assessing risks associated with adopting the following:
- Improve data sources, capabilities and governance to effectively leverage AI.
- Deploy smart technologies to mitigate risks such as financial crime and credit risk.
- Collaborate between risk and the wider enterprise so that risk management activities do not just lead to better risk mitigation, it also deliver value. But there is a problem.

About the research
The Accenture 2019 Global Risk Management Study is the sixth edition of our study first published in 2009. It is based on a telephone survey (computer-assisted telephone interviewing, CATI) of 683 senior risk management executives conducted by Longitude Research Ltd on behalf of Accenture between March 2019 and April 2019.
