As a leading Aerospace and Defense manufacturer you're facing unique set of industry challenges.

This includes rigorous external reporting and compliance obligations affecting many aspects of your business. And within your operations, your complex high value manufacturing processes and multifaceted global supply chains mean that maintaining seamless execution demands constant management focus and unwavering vigilance and control. Overcome these challenges better than your competitors, and your business can fly faster and higher, gaining significant competitive edge.

So what's the best way to do this? By reinventing your business as an intelligent enterprise with a digitally integrated insight driven platform at its core. Harnessing advanced and disruptive thinking around industry innovation and technology, to help you make the right investments, navigate complexity and realize value at pace. Now Accenture has

developed a new, fast and seamless way for you to take the next step by implementing a set of preconfigured industry specific solutions that will enable you to realize the full power of SAP S/4 HANA across your business from day one. We call it Accenture MyConcerto for Aerospace and Defense. We developed it through close collaboration between our global network of world leading A&D industry specialists and SAP professionals.

And by specifically tackling the challenges you face, it will elevate your business performance to whole new levels. So how will MyConcerto do this? Put simply, by providing you with solutions that address both the regulatory and reporting requirements and complex manufacturing scenarios that are unique to your industry. Whatever you look in your business MyConcerto for A&D will be there. Providing S/4 HANA enabled capabilities that drive profitable growth in sustainable ways, by applying innovation to boost accuracy, responsiveness and speed to value, enhance collaboration

across the enterprise, and provide insights that create unlimited opportunities for future disruption. And to future proof the solution and unlock new value from innovation, MyConcerto also enables co-innovation with the Accenture Liquid Studio for SAP Leonardo and is continuously refreshed with new features. What's more, the Accenture team has developed an extensive set of user roles ranging from the C suite to the technician on the shop floor. All of this will help enable you to simplify and accelerate your digital transformation initiatives and get the very best from moving to S/4 HANA.

The message is clear: Accenture's unique blend of A&D and SAP professionals and S/4 HANA assets will turbo-charge your journey to S/4 HANA; and position you to get major operational efficiencies while overcoming your unique industry challenges. Let's collaborate and make the journey to your future together!
