WINNING THE 5G RACE: What challenges do businesses face?

Four in five (79%) technology and IT decision makers think 5G will have a significant impact on their organization — but the majority are yet to use it widely in their business. What hurdles stand in the way for those in the 5G race?

THE BARRIERS TO 5G ADOPTION

- Security concerns: 35%
- Obtaining international bands: 31%
- Existing networks available: 26%

THE BIGGEST 5G SECURITY CONCERNS

- User privacy: 41%
- Data breaches: 37%
- Monitors access to corporate networks: 36%
- Intrusion into corporate networks: 34%
- Overall volume of devices: 32%

Two thirds (62%) are worried 5G will leave them more vulnerable to cyber-attacks.

THE CHALLENGE OF MONETIZATION

- 90% see the business opportunity in 5G networking
- But four in five businesses believe the cost of managing IT infrastructure in applications will increase.

THE MOST IMPORTANT 5G HURDLES TO JUMP

- Being 5G roaming for businesses: 52%
- Being a 5G service provider: 45%
- Running new networks based on 5G capability: 43%

Despite these challenges, the benefits of 5G are huge — as early adopters have already discovered.
