

# HEALTH & HUMAN SERVICES SUMMIT: 10-YEAR CELEBRATION

## VIDEO TRANSCRIPT

### 2019 Health & Human Services Summit Purpose, Passion and Impact for the Future

10 Years of Collaboration  
10 Years of Community  
10 Years of Innovation  
10 Years of Inspiration  
10 Years of Real-World Perspectives  
10 Years of Real-World Results  
10 Years of Health & Human Services Summit at Harvard University

It began with a vision for bringing together the Health & Human Services community  
Together we created the Human Service Value Curve and worked together to move from regulative to generative  
Since 2010  
Challenges have evolved  
Technology has exploded  
But people remain the priority  
How can we move upstream?  
How can we keep kids from entering the child welfare system in the first place?  
How can we identify and address the root causes of crime?  
How can we reduce homelessness and poverty?  
How can we realize more value and better outcomes from health investments?  
Every year  
We come together to explore  
How can we meet people **where they are**  
With **empathy** and **compassion**  
To understand

the full context of **where we all live, work, play and age**

And then together develop the solutions and **provide the support**

to build better lives for **everyone**

10 years has shown

It takes more than

a single **organization**

a single **individual** or **leader**

It takes more than a single **policy**

or **program**

10 years has shown

It takes **innovative ideas**

and **collaborative ecosystems**

to produce **generative outcomes**

10 years has shown

how far we have come

and how much opportunity lies ahead

Thank you for 10 years of

**Community**

**Collaboration**

**Progress**

And for your **commitment** to continuing the journey
