

# Operations 360° Virtual Tours

## **PHILIPPINES**

Finance and Accounting  
Video Transcript

Welcome to the virtual tour of our Intelligent Operations Centers in the Philippines.

This short video can be paused at any point if you want to look around for longer. If you are watching this on your laptop, you can navigate the 360-degree experience using your cursor or touchscreen. You may also use a virtual reality headset for a fully immersive experience.

Ready?  
Let's go!

### **Welcome to the Philippines!**

The Philippines is the world's fifth-largest island country with a rich history combining Asian, European, and American influences. Its beaches, heritage towns and monuments, rainforests and diving spots make it one of the most popular tourist destinations.

Our locations in Manila, Cebu and Ilocos are part of network of 50+ centers around the world dedicated to enabling your journey to intelligent operations and specialize in driving exceptional innovation needed to build and sustain a finance function that's resilient, and future ready.

Our diverse team of more than 30,000 industry, functional and domain experts work together in collaborative and innovative spaces at our facilities in Philippines

This includes more than 6,600 finance experts, focused on finance functions including: Record to Report; Source to Pay; Credit, Collections, Billing and Accounts Receivable.

Using Intelligent finance function, finance leaders can accelerate innovation, drive shareholder value and revenue growth and improve compliance and accuracy in reporting.

Our teams are ready to work with you to deliver agile and data-driven finance business process services, using design thinking and our proprietary technology to transform your finance operation.

Core to our approach for delivering transformational growth is our SynOps operating engine.

SynOps combines the right mix of human and machine intelligence to create an environment for advanced data exploration; assessing processes and activities to see if they could be automated; and using real-time data to make decisions that matter to our clients

These elements give us all control to get ahead of the issues, before they become critical.

Exceptional talent.  
Innovative technology.  
Powerful Insights

SynOps is powering intelligent operations.
