ACCENTURE CYBER FUSION CENTER NAPLES
Accenture’s new center in Naples provides next-generation cybersecurity services in an immersive space where we co-create in close contact with our clients in order to develop new approaches, techniques and solutions to prevent and manage digital threats. Our intelligence services enable us to simulate potential attacks, analyze vulnerabilities, and define and implement countermeasures quickly in order to always be one step ahead of hackers.

Our global team of experts in a range of disciplines ensures the security of our clients, helping to prevent and avoid even the most advanced, most sophisticated cyber-attacks in order to protect their digital businesses.
DISRUPTIVE INNOVATION ALWAYS AT THE READY

Our unique environment lets you experience firsthand how innovative and disruptive new approaches build business resilience, from the inside out.

Here’s how we break it down, and it all adds up to services that provide unprecedented visibility:

- **KNOW** what threats are headed right for you and have plenty of time to take action.
- **BE** your own worst enemy and emulate the bad guys’ best moves.
- **SEE** how security operations will evolve.
- **EXPEL** active attacks from your enterprise.
The new Cyber Fusion Center gives access to end-to-end security services, from threat intelligence and digital identity to incident detection and response and digital forensics in order to respond quickly to digital threats.

**THREAT INTELLIGENCE**

iDefense provides world class threat intelligence services so that clients know the threats that can impact their operations and can act to protect themselves.

**MANAGED THREAT OPERATIONS**

Focused on Cybersecurity incidents and detection, leveraging existing client platform or enabling cloud capabilities at scale.

**MANAGED CLOUD SECURITY**

Provides a comprehensive set of solutions to security data in cloud, with H24 monitoring and management.

**DIGITAL FORENSICS AND INCIDENT RESPONSE**

FusionX’s team provides the highest level of digital forensics and incident response capabilities in order to respond to client breaches, from triaging the incident through to complete remediation.

**MANAGED DIGITAL IDENTITY**

A full life cycle of IAM services for the enterprise, covering processes and technologies to securely manage identities and entitlements.
OUR GLOBAL NETWORK

Our Naples Cyber Fusion Center is part of a network of centers around the world in which we combine managed security services, intelligent automation technologies and integrated cyber defense services in order to help organizations innovate as they combat cybercrime each and every day. As a result, we are able to provide our customers with direct access to the world’s most advanced services, while also being a local point of reference in the protection of their digital businesses.
Cybersecurity is a global issue that affects all industrial sectors and whose growing complexity requires increasingly advanced skills and solutions. Traditional SOCs are no longer sufficient to provide the necessary defense. The Cyber Fusion Center in Naples is part of a new generation of Accenture centers designed to help clients protect their businesses and the ecosystems they operate in, creating a level of digital trust that is critical for the growth of any organization today.
