

THE INDUSTRIALIST

VIDEO TRANSCRIPT

CURIOUS | INNOVATOR | STRATEGIC

IN CONVERSATION WITH EMMANUEL LAGARRIGUE, CHIEF INNOVATION OFFICER SCHNEIDER ELECTRIC

YOUR APPROACH TO INNOVATION?

Personally, I am spending most of my time on innovation at the edge, because it's the one that requires a lot of effort, a lot of change management and a lot of investment.

GROUNDBREAKING INNOVATIONS AT SCHNEIDER ELECTRIC?

We have launched something that is very, very innovative, where we are bringing a more sustainable, more efficient way to manage power in medium voltage

NEXT BIG GAME CHANGERS?

We see that the world is going to consume in the next 20 years, probably three times as much electricity as we consume today

WHERE DO YOU SEE THE COMPANY IN TWO TO FIVE YEARS?

If I had to bet on one big trend, which at Schneider Electric we will try to help with, is resilience for the next decade.

WHAT INSPIRES YOU?

I feel responsible, and inspired by what Schneider Electric can do and the impact it can make on solving this and making the world a bit more resilient and definitely much more sustainable.
