Human + machine

Using a digital roadmap with a vast suite of AI-infused assets, myWizard makes businesses more agile, intelligent and innovative while maximizing efficiency and value from IT investment.
myWizard key features

myWizard helps establish and manage structured approaches for modern engineering, modern operations, cloud and enterprise automation.

- **myWizard for Automation Journey** structures the intelligent automation journey by benchmarking automation and engineering maturity, identifying automation opportunities, building an actionable, digital roadmap, managing change and tracking savings and return-on-investment (ROI)

- **myWizard for Systems and Software Engineering** hyper-drives the modern engineering journey by infusing AI automation into the entire software delivery lifecycle, including software quality engineering, and drives system transformation programs with high speed, quality, agility and predictability

- **myWizard for DevXOps** is a one-stop, self-service marketplace to provision on-demand infrastructure, tools, cartridges and AI-infused assets to automate DevXOps across technologies and platforms

- **myWizard for Applications + Infrastructure (AIOps)** drives a predictive and business-aligned modern operations automation journey for IT with AI at the core to maximize efficiency, cost optimization and automation-fueled innovation while minimizing business disruption

- **myWizard for Automation in the Cloud** accelerates cloud migration and cloud-native development with multi-cloud strategies and makes multi-cloud operations more reliable and predictable
**myWizard for Knowledge Management** minimizes knowledge loss using AI assets to acquire and mine knowledge from diverse sources and retrieve in real-time.

**myWizard Virtual Agents** are AI-powered “digital co-workers” for human + machine collaboration that rapidly transform IT delivery from reactive to proactive and predictive with automated alerts, early warnings and data-driven recommendations to minimize risks and disruptions.

**myWizard Automation Marketplace** is an out-of-the-box, pre-configured catalogue of bots that accelerates the development of automation use cases across the IT delivery lifecycle on multiple technology platforms.

**myWizard for Technology Platforms** simplifies delivery with a ready-to-use package of integrated assets across the technology and software delivery lifecycle to accelerate modern engineering and operations with speed, agility and security for SAP, Oracle, Salesforce, Workday and Microsoft.

**myWizard for DIY AI** is a suite of pre-built, configurable, ready-to-use do-it-yourself AI models to accelerate your AI journey and build your own use cases.
