

ACCENTURE ACADEMY: CHANGE IS HERE

VIDEO TRANSCRIPT

Accenture Academy
Change is big.
Change is fast.
Change is complex.

Today organizations are in the midst of constant change.

More than 78% of CEOs say their organizations must be reinvented. (Accenture CXO Survey, 2020)

Ensuring a skilled workforce is the secret to navigating whatever comes next.

60% of workers are having to learn new skills following the pandemic. (Accenture CXO Survey, 2020)

When people have the right skills, they can drive organization-wide transformation.

Through innovative tools, learning platforms, and assets from Accenture and our network of partners we collaborate with clients around the globe to provide their workforces with the skills they need for today and tomorrow.

Recently we've changed ourselves.

Meet our next generation skill building experience.

We bring together new opportunities to unlock potential.

Combined with the power of Accenture's Future Talent Platform.

We are skills focused & solution driven, with adaptive content & interactive videos, a next-gen learner experience.

We are built for the future, centered on cohorts & social collaboration to help workforces transform together, seamlessly integrated into learning ecosystems making it easier for people to access and learn.

Adaptable to an organization's specific learning needs. Our simulated experiences support a learner's application of knowledge. An award-winning cybercrime series drives cyber vigilance, and 30-day quests guide and reinforce targeted behaviours and learning.

We create learning experiences that drive change by: building targeted skills, equipping workforces to navigate change, supporting transformational journeys.

Accenture Academy delivers a personalized, collaborative, and analytics-powered learner experience that will unlock human ingenuity.

Change is coming. Are you?

Let there be change
