OUR MUREX CAPABILITIES

ACCENTURE AND MUREX

Capital markets firms face a more challenging environment today than perhaps at any time in the past. Across all business functions—whether front office, back office or treasury—complexity is on the rise, and risk exposure ever more difficult to manage. We know that having an effective, integrated trading architecture is more crucial to your success than ever before.

For over two decades, Accenture has been helping clients with their Murex projects to transform their front, middle and back office operations and risk management functions, including collateral management and treasury operations. We provide consulting, system integration and offshore services around Murex, and have a wealth of experience with Murex projects of different scales, providing implementation, integration, upgrade and support and maintenance services.

Our experienced Murex professionals have a deep understanding of the challenges involved in deploying and implementing Murex in multi-system and vendor environments.

We are very passionate about what we do and have a deep understanding of the many challenges that can arise when deploying and implementing a trading platform in multi-system and multi-vendor environments. Be it an absence of clear requirements, different expectations or a breakdown in communications—we know exactly how and where to get started in helping to deliver clear solutions that meet our clients' needs.

Our comprehensive range of services and accelerator tools is designed to transform our clients' front, middle and back office operations, including risk, collateral management and treasury operations.

ACCENTURE

THE ONLY GLOBAL ALLIANCE PARTNER OF MUREX

Accenture has worked on Murex projects for over 20 years, and we are the only global alliance partner of Murex. This enables us to deliver the highest quality support, release, and management configuration services from a variety of locations across the globe, including offshore.

MUREX ACCELERATORS AND TOOLS

The alliance provides Accenture with a number of unique possibilities to significantly extend the development of solution accelerators and to market Accenture-owned tools for Murex. These include Accenture Reformx, a change and release management tool, and Accenture MxMon, a system performance monitoring tool.

OVER 900 SKILLED MUREX PROFESSIONALS ACROSS THE GLOBE

Since 2006, we have been operating a joint training program housed in Murex's central Paris office. Here, Accenture professionals work in Murex support teams over several months, gaining hands-on experience with Murex applications by supporting actual customers of the software. Our team of over 900 Murex professionals across the world helps clients onshore, nearshore and offshore to implement, integrate, upgrade, support and maintain their trading system.

BRINGING TOGETHER LEADING SOLUTIONS AND INDUSTRY KNOWLEDGE

Our alliance brings together Murex's leading trading, risk management and processing solutions with Accenture's unparalleled industry knowledge, integration capabilities and service offerings. Our team has experience with all generations of Murex solutions (MxG2000 & MX.3) on all business solutions including Trading, Operations and Finance, Market Risk, Credit Risk and Limits Control but also other Murex tools like MX.3 Testing and Environment Management (TEM).

MUREX CENTER OF EXCELLENCE

Our Center of Excellence supports multiple live clients and provides training, research and comprehensive development facilities, including the development of Murex-specific tools for environment deployment, configuration management, test automation and results validation.

BRINGING MUREX TO YOU

Our long experience of working on numerous Murex implementation projects has allowed us to develop a unique and robust set of services, tools and offerings around the platform. In addition, we have the skills and expertise to support the projects, including MX.3 upgrades and application management.

OUR MUREX SERVICES

Consulting

- Strategic assessments
- Process consulting
- Trading and settlement architecture design
- Global trading operating model design

System Integration

- Reconciliation
- Integration skills around MxML Exchange, Datamart reporting, product integration for static consolidation and trade feeds
- Custom integration tools for trade feeds
- Migrations and connections to Bloomberg (TOMS, SAPI), MarkitWire and DTCC
- Design, build, roll-out and aftercare work
- Software implementation (cross-asset class, front, middle, back office, multi-site)

Application Maintenance

- Onsite and offshore application management and production support
- Testing services
- Standard release upgrades, including a jointly-developed combined upgrade approach to MX.3

OUR MUREX ACCELERATORS AND TOOLS

Accenture Methodology for Murex

We have collaborated extensively with Murex to align our proprietary Accenture Delivery Methods (ADM) with Murex MXpress methodology. This covers new implementations and system migrations and has been calibrated against many projects.

Assets and Tools

Our Murex-specific tools support the entire project life cycle and include:

Accenture Reformx—a comprehensive and sophisticated end-to-end change and release management tool

Accenture MxMon—a system performance monitoring tool

Accenture MX Project Estimator—a standardized estimation framework that leverages best practices from multiple Murex programs

Accenture QTP Add-on for Murex—plug and play scripts to automate functional and regression test cases on QTP

Accenture Upgrade Toolkit—comparison utility for platform upgrades (non-migration only)

OUR MUREX DELIVERY

Murex Solution Factory

Our Murex Solution Factory offers a robust application management service covering all aspects of Murex, from implementation and maintenance to upgrades and testing services. The Solution Factory is located in our Capital Markets Delivery Centers in Spain, Italy, Slovakia, Mexico and India, where we have skilled resources with deep industry knowledge and experience in accelerating solutions.

Capital Markets Hubs

Accenture also has Murex delivery capabilities in important locations around the world including London, Paris, Madrid, Milan, Toronto, New York, Singapore, Sydney, Mexico City, Tokyo, Stockholm, Frankfurt, Zurich and Shanghai.

Over the past two decades, Accenture has worked on more than 90 Murex projects and has helped clients with their Murex implementation, upgrade and integration projects, including investment banks, clearing houses, hedge funds, prime brokers and organizations that use Murex for treasury.
