High performance. Delivered.

Accenture Foundation Platform for Oracle Mobile

Video Transcript

True enterprise mobility can help you unlock value for your organisation
Help to deliver unique experiences for your customers and reinvent your products and services
Empower and connect your people, wherever they are.

On the front desk, or on an oil rig.
On-site with your customers, or on the way home
Here and Everywhere

Help make on-the-spot decisions with real-time information
And help put key data in the hands of the people who require it when and where it counts
The future of your business can be tied to your strategy for enterprise mobility.

And you should move right now and move fast.

But you know you require enterprise grade mobility.

To prevent silos and get backend integration right from the start.

To help prevent cost blow outs and manage security.
Accenture Foundation Platform for Oracle Mobile helps you leverage enterprise grade mobility in a way that is smart, agile and secure.

It's smart.

Because it helps you quickly configure mobile solutions that can work seamlessly with your enterprise systems

It's agile.

Reusable design modules allows you to be more flexible. Write code once then deploy many times.

Allowing you to move faster with an integrated package of demo environments, documentation, cookbooks and other assets. The result? Up to 30 percent shorter implementation times.

It's secure.

With enterprise-grade security and authentication.

And remote device data wiping so that only authorized people have access to your or your customers' data.

Whether you work in the cloud, on premises or offline become a market leader.

With Accenture
