

Public Safety Powered by Analytics

Accenture Insights Platform

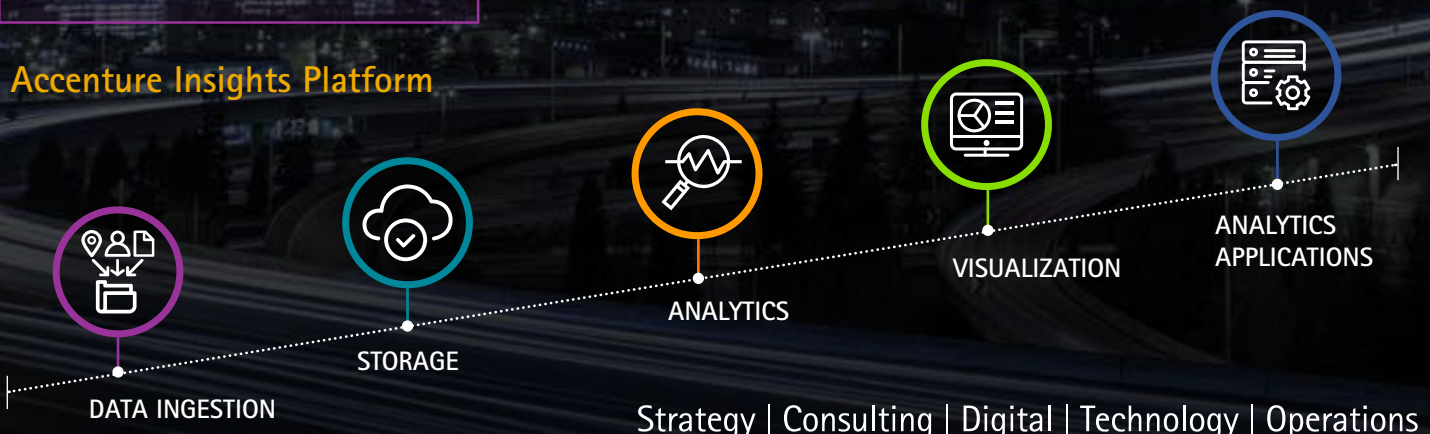

The advent of new digital technologies has resulted in more and more data being created. Public safety agencies are increasingly turning to analytics to turn complex data into useful actionable insights and precisely predict and prevent criminal activity. The Accenture Insights Platform has the power to truly transform the way in which public safety agencies work and share information for the benefit of command control, officers and citizens alike.

High performance. Delivered.

Public Safety Analytics Framework

Accenture Insights Platform

Victim / Witness Analysis

People focussed analytics to help recognize vulnerabilities, prevent repeat victimization and provide cross-agency victim support services.

Event / Transaction Analysis

Event analytics to identify, link and analyse activities based on type of event or incident, to help prevent crime, increase safety and resolve events that have already occurred.

Suspect / Offender Analysis

People focused analytics to identify likeliness to offend, predict likeliness to re-offend, target diversionary activities and provide cross-agency offender support and rehabilitation services

Geographic Analysis

Location based analytics to link and analyse activities based on geographic location to prevent, disrupt and detect crime.

Citizen Insight

Understand community sentiment, identify community priorities and drive community engagement in preventing and resolving criminality and community safety.

Human Networks Analysis

Network analytics to identify cross-jurisdiction community connections between individuals, groups and organizations for the purposes of crime prevention and detection.

Behaviour / Pattern Analysis

Predictive, real-time and retrospective analysis of emerging / changing trends (socio-economic, criminal, digital etc) to prevent, disrupt and detect crime.

Personalized Citizen Interaction

Understanding individual and service history. Tailor and personalize interaction with individuals to their needs as and when they interact with the Public Safety ecosystem.

Next Best Action – Real Time Capital-making Enablement

Enable officers and staff to take immediate, operational decisions with the best possible information provided to them to increase effectiveness and improve safety.

Workforce Insight

Provide insight into the state of the workforce including safety, size, skills, morale, threats to integrity, training and risk factors.

Case/Investigative Management Support

Enable speedier, more effective resolution of events/investigations through enhanced information, evidence and intelligence analytics.
