

THE NEW BORDER AGENCY

INSIGHTS FROM GER DALY

**Senior Managing Director,
Accenture Global Defense & Public Safety,
June 2017**

Keeping Europe security is all about sharing the information now. This conference has been about interoperability, connecting all the databases that we have across Europe and reaching mutual understandings about how we share information. Some of the key things we need to do now are: join up the multiple information sources that we have across Europe in our borders and in our systems. And I think there is a growing realization we've got to join up our immigration databases, our justice databases, our public safety databases and create common policies on top of those and commonly shared information.
