

THE NEW BORDER AGENCY

INSIGHTS FROM KRUM GARKOV

**Executive Director of EU LISA,
June 2017**

Well, the first priority is about the organization. EU LISA started five years ago. We built I think a very robust organization but now we need to reinvent ourselves because the challenges of today, the extension of our mandate and the new initiatives coming on board require that.

And the second priority is of course to look at the new initiatives that are now on the table, especially entry, exits and... systems and to make sure that it will be smoothly implemented.
