

ACCENTURE LIQUID STUDIO FOR SAP LEONARDO

VIDEO TRANSCRIPT

Accenture Liquid Studio for SAP Leonardo

NEW IT is changing business faster than ever before.

Disrupt to Innovate and Grow

Or Do nothing and fall behind

Transform into a digital business.

With the cutting-edge capabilities of The Accenture Liquid Studio for SAP Leonardo

Create new apps

Solve complex problems quickly

Build an app from idea to proof of concept in four weeks.

It's a powerful combination: Accenture's industry knowledge + SAP Leonardo and SAP Cloud Platform.

Leverage the Internet of Things, artificial intelligence, virtual reality and robotics and predictive analytics all on SAP Leonardo and SAP Cloud Platform.

We help clients build applications to win.

Such as:

- **Digital Assistant** – leveraging artificial intelligence to revolutionize business help desks
- **Smart Fleet** – a ground-breaking app to track maintenance
- **NURSY** – your personal healthcare assistant on your mobile device
- **Digital Plant** – leveraging IoT for an insight driven digital dashboard to monitor plant production

Solve problems, engage customers, deliver business results, and much more...

The Accenture Liquid Studio for SAP Leonardo.
