Accenture Finance & Risk Services provides clients with end-to-end offerings to improve management of internal complexity, regulatory requirements and capital decisions to enable long term profitability

Accenture Finance & Risk Services

What's the burning platform?

CFOs and CROs in the financial services industry are facing a unique set of circumstances:

- Volatility in the economy and in financial markets
- Increasing regulatory demands
- Intensifying pressures on business profitability

To remain competitive, firms must re-evaluate their business strategies and re-define their business and operating models.

ROE Optimization Triangle

- Increased cost of operations
- Decreased accuracy and consistency
- Increased capital and liquidity requirements
- Decreased margins

Focus has to be on reducing complexity to solve for Regulation and RoE pressures
