

# THE ACCENTURE RETIREMENT MOBILE APP

## VIDEO TRANSCRIPT

Success is achieved through hard work and perseverance

As a pension administrator, you play an integral role in ensuring that in retirement your member's hard work and perseverance becomes their financial success

You must deliver on your fiduciary responsibilities

You also have an opportunity to provide counsel for them every step along the way of their retirement journey.

In the digital age this requires being able to service your members anytime, anywhere

With the rise of mobile and digital devices, 66% of respondents to a recent survey would like to access their pension accounts from the palms of their hand via a mobile application.

For the cost of a few postage stamps per member per year, you can deliver an improved customer service experience to all of your members and employers via the Accenture pension app.

Our robust mobile pension app simply and seamlessly works with your existing systems.

And it is updated regularly to ensure security, incorporate new features and take advantage of IOS and Android updates.

As members and employers gain the freedom and flexibility to view, enter and update information on-demand and on the go

You will see a shift from providing a high volume of transactions to more valuable "coaching" services

Your resources will be able to focus the more pressing member issues that require greater interaction and engagement

Enabling you to become mentors and advisors to your members along their entire retirement journey

Don't wait another day!

Schedule a meeting now to learn more about how you can increase member service and engagement.
