

DIGITAL GOVERNMENT TRANSFORMATION OVERVIEW - DOM DELMOLINO

VIDEO TRANSCRIPT

Dominic Delmolino: Hi, I'm Dominic Delmolino, Chief Technology Officer for Accenture Federal Services. Federal IT leaders face real challenges today. Missions are changing faster than ever. User expectations grow daily and technology moves forward at a pace that most agencies can't match. Cyber threats are growing and budgets are flat at best. Clearly, new thinking and new approaches are needed. Agencies need to take advantage of the cloud to modernize their IT infrastructure. They must embrace digital technologies to deliver smarter, more adaptive solutions, faster. And CIOs must become business leaders and change agents within their agencies.
