

REACH PROCUREMENT'S NEXT FRONTIER

Accenture High Velocity Sourcing and Procurement solution

VIDEO TRANSCRIPT

How do you balance efficiency, cost and the need to evolve with your business?

Do delayed payments and slow cash flow affect source-to-settle cycles?

Can you increase spend visibility and better mitigate risk?

Or raise procurement's strategic value, without raising costs?

Deliver more, in less time, with our High Velocity Sourcing and Procurement solution.

Preconfigured and preloaded with assets, and using an agile delivery methodology for the cloud, it ensures smarter SAP Ariba implementations, for:

Faster delivery, increased flexibility, lower cost and effort, and reduced risks.

Accenture's experience and implementation services make it easy to access a fully functional solution.

You'll benefit from leading sourcing and procurement processes and new technologies, plus the tools to help:

- Understand and use the assets
- Generate requirements
- Increase data quality
- Configure with confidence
- And improve testing.

From sourcing processes to procurement cycles... our ready-to-use solution means quality delivery in less time.
