

# Enterprise Product Information and Content (EPIC)

## An Intelligent Product Lifecycle Management (PLM) Portal

The EPIC solution captures scattered product information in one place enabling faster decision making

High performance. Delivered.

### Challenges

#### Scattered

Product information dispersed and in silos

#### Complex

Inherently complicated system user interfaces

#### Inefficient

Cumbersome access to reporting and analytics

### Solution

#### Mobile

enabled for access from anywhere, anytime

#### Comprehensive

aggregate view of product and program information

#### Economical

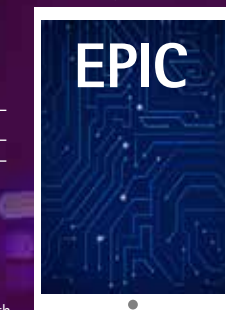

based on Microsoft technology leveraging existing investments with no per-user license fee

#### Actionable

embedded analytics enable problem identification and resolution

#### Extensible

connects to multiple PLM systems, SAP & homegrown applications

#### Intuitive

user interface is extremely friendly and simple

### Outcomes

#### Productivity

Up to 95% improvement

#### Quality

Up to 70% improvement

#### Cycle Time

Up to 70% reduction

#### Rework

Up to 50% reduction

#### User Satisfaction

Up to 90% improvement
