

## What is Accenture Technology Consulting?

### **Jay Sadhu, Technology Consulting Senior Manager**

So, Technology Consulting is about connecting dots...D-O-T-S: it's digital, operations, technology and strategy, DOTS.

### **Grace Coventry, Technology Consulting Principal Director**

We're kind of in the middle in the form of a neutral arbiter, looking at the pros and cons of things so they can trust our judgement

### **Jay Sadhu, Technology Consulting Senior Manager**

And I think that TC is at the eye of the storm where we can go ahead and help our clients weather the storm better and come out of it stronger and not be disrupted so they themselves can become the disruptors.

### **Mallory Demarines, Technology Consulting Consultant**

So, we're not actually just implementing THE NEW and working in THE NEW, we're defining THE NEW.

### **Sergio Bazoberry, Technology Consulting Manager**

Technology Consulting puts into practice the different visions that have been cultivated with our clients and we really where the rubber hits the road.

### **Edna Ezzell, Technology Consulting Manager**

We advise clients on how to implement technology solutions that have meaningful impact to their business objectives.

### **Jay Sadhu, Technology Consulting Senior Manager**

TC is the place where you're bringing in new technologies like Artificial Intelligence, machine learning, creating chatbots, blockchain and you're bringing it all together through new ways of working using stuff like design thinking, agile-at-scale, so our clients can innovate faster. That's why TC is important now.

### **Grace Coventry, Technology Consulting Principal Director**

The reason I feel profoundly loyal to is our commitment to Inclusion and Diversity. It's not just a motto or a phrase here at Accenture. People live it. We're not an organization that just tolerates differences, we celebrate them.

**Jonathan Thayer, Technology Consulting Manager**

The people I work with on my current project are amazing...all the way around. We have a great, really blended team.

**Jay Sadhu, Technology Consulting Senior Manager**

We are brought in as trusted advisors.

**Edna Ezzell, Technology Consulting Manager**

We're in the trenches with our clients every single day. And to know where it started – from just drawings on a wall to actually seeing business users using the systems in production is really exciting.

**Mallory Demarines, Technology Consulting Consultant**

Helping our clients solve a really complex solution actually led us to solve a bigger industry solution, and actually influence the cloud product that we were using.

**Grace Coventry, Technology Consulting Principal Director**

I.

**Jay Sadhu, Technology Consulting Senior Manager**

I.

**Jonathan Thayer, Technology Consulting Manager**

I AM.

**Mallory Demarines, Technology Consulting Consultant**

I.

**Edna Ezzell, Technology Consulting Manager**

I AM TC.

**Sergio Bazoberry, Technology Consulting Manager**
