# ACCENTURE HYBRID CLOUD

Video Transcript

[music playing]
Accenture Hybrid Cloud is comprised of a management platform that spans public cloud, Accenture's core and enhanced Private Clouds, and legacy systems.

Accenture has taken our experience with managing applications in the public cloud, and used this to reinvent a managed private cloud, bringing the benefits of both platforms to our clients through the Accenture Hybrid Cloud.

In short, with Accenture Hybrid Cloud, "we've done the hard work so you don't have to." Delivered As-a-Service on premise, co-located or in an Accenture hosted data center.

Research has shown that most large enterprises will evolve to a hybrid IT environment with varying degrees of public and private cloud adoption... It is all about striking the perfect balance for you.

Accenture has invested in building out the automation and orchestration to provide end-to-end functionality with the highest levels of reliability, availability and predictability.

Leveraging Accenture and Hewlett Packard Enterprise's combined experience as market leaders. In public cloud, we have created an industrialized private cloud.

This gives us the power to focus on what is most important to your enterprise. Clients are looking to ....

MANAGE INCREASED CUSTOMER EXPECTATIONS, INNOVATE FASTER, BECOME AGILE AND FLEXIBLE, SIMPLIFY IT, SHIFT TO EVERYTHING AS-A-SERVICE, DRIVE DOWN COST and DELIVER IMMEDIATE BUSINESS RESULTS.

The Accenture and HPE partnership brings together two dominant players in the market – to simultaneously drive speed and value. All within a COMMITMENT TO BUSINESS OUTCOMES.

Accenture Hybrid Cloud offers unparalleled Speed to value realization with a seamless experience across PUBLIC and Private.

Accenture's Hybrid Cloud offering is a managed service that: is Easy to consume – saving 50% or more in start-up time, Leverages Analytics, Automation, and AI to remove another 30 -50% of the cost of daily operations. We drive an additional 10-30% out of the cost of cloud by working with our clients to put the "right workload, on the right platform, at the right price".

We are uniquely positioned in the marketplace to offer outcome based, end to end solutions: from strategic planning to operations, from core to edge.

THE ACCENTURE HYBRID CLOUD SOLUTION IS APPLICATION-DRIVEN AND CAN BE YOUR ANSWER TO CRITICAL WORKLOADS INCLUDING: Large Scale ERP, Block Chain, HIGH PERFORMANCE COMPUTE, Azure Stack

It is all about getting the RIGHT WORKLOAD, IN THE RIGHT PLACE, AT THE RIGHT PRICE for you.

Let Accenture guide you on the journey to hybrid cloud and beyond.

ACCENTURE HYBRID CLOUD DELIVERED AS-A-SERVICE VIA HPE GREENLAKE.
