**Jennifer Chang**

Hi. My name is Jennifer, and collaborating with a great group of people inspires me.

There are so many resources and so many people that you can learn from every day.

**Edouard Lassalle**

Hi, I'm Edouard and making a difference inspires me.

Working in life sciences is really exciting because we're impacting everybody's lives every day.

**Sakeissa Robinson**

My name is Sakeissa and I'm inspired by the opportunities Accenture has available for my career.

They care what I need in my life to be happy, as well as to be productive on the client site.

**Jennifer Chang**

Accenture finds its way in front of consumers in a way that they don't even realize.

One example is for a major hotel brand. We did some incredible work to transform the app that consumers use to make reservations and just engage with the brand.

**Sakeissa Robinson**

We're able to go to the client site and see, "Okay, this is how you're doing things now, but this is how you should be doing it 10 years down the line."

**Edouard Lassalle**

We're able to come up with a cool idea and also make sure that it's implemented in operational terms.

Accenture can do it all and that's transformation at work.

**Edouard Lassalle**

If you want to first start in life sciences, consumer goods, aerospace and defense, you can do that, and then if you decide to pivot toward sales and marketing, analytics, you can do that all within Accenture Consulting.

**Jennifer Chang**

The kind of person that I would want on my team is someone who really values each individual's unique strengths.

**Sakeissa Robinson**

Just be willing to learn, be open. If it's something that you don't know, be motivated to go out there and try to figure it out first.

**Jennifer Chang**

You can definitely shape your career at Accenture. There's so many different opportunities in front of you.

**Sakeissa Robinson**

We get to see our work in our everyday lives. To be a part of a company that's making such an impact, honestly it makes me feel like a life changer.
