Accenture has been a signatory to the 10 principles of the United Nations (UN) Global Compact since 2008 and we are one of the 50 inaugural members of Global Compact LEAD, which focuses on achieving higher levels of sustainability performance through innovation and action. As a LEAD member, we are committed to work toward implementing the Blueprint for Corporate Sustainability Leadership and sharing related outcomes and learnings with the broader universe of companies in the Global Compact. As part of this ongoing commitment, we actively engage with the UNGC’s UK Network’s Modern Slavery Working Group and its Diversity & Inclusion Network. We have also been participants in two of UNGC’s Action Platforms: Decent Work in Supply Chains and Breakthrough Innovation for the SDGs. Through these platforms, we deeply explore these sustainability issues and seek opportunities to build collaborative solutions that contribute to the Global Goals. In addition, Accenture is involved in various UN initiatives and participates in UN Global Compact local networks in several countries.

Accenture’s 2018 Corporate Citizenship Report serves as our tenth Communication on Progress (COP) toward the 10 principles of the UN Global Compact and our journey as a member of Global Compact LEAD. The report explores our corporate citizenship goals, progress and performance across our global operations during fiscal 2018 (ended August 31, 2018) unless otherwise noted. View our previous reports.

See the following pages for a detailed look at our progress toward addressing the 10 principles.
## UN Global Compact Advanced Level Criteria
